Bach, sculpture, plastic surgery, public speaking and a New York love story like no other - this is Lucy Ellmann's most extraordinary work of art to date

About the Book A brutal murder during a festival on the Georgia coast remained unsolved for years, until a quiet, shy hospital clerk from Florida found herself immersed in a chaotic series of revenge killings. While everyone around her believed she held some sort of tie to all these brutal slayings around Jacksonville, Fla., Angel refused to believe it. Angel Bradley had been sheltered and adored her whole life by a law enforcement father and an overindulgent mother. Now, as a liberated young woman, she lived alone and enjoyed a quiet lifestyle. Thus, she was unable to accept this theory. Angel was just too shy and much too awkward to be considered a link to the murders. Still, it did appear that her work at the hospital had somehow placed Angel in close proximity to this vicious killer and the maniacal deeds.

The woman's golden hair is spread out beneath her on the bed of leaves where she's fallen, her beautiful blue eyes open wide. The police are calling it a random attack, but Jessie Tucker isn't so sure – she's seen this crime scene before... she was the victim. Twelve years ago, Jessie Tucker was attacked as she made her way home from an outdoor concert. She still walks with a limp from that night, and every day since has been a struggle to rebuild her life. The police told her she was unlucky – that she was safe after they charged a local man for the crime. But Jessie has never managed to shake the feeling that there was someone else in the park that night... someone she knew. But then Margaret Kincaid's murder file lands across her desk, and Jessie knows she can't keep silent any longer. Margaret's wounds so exactly match her own its spooky – but Jessie's attacker is in prison, and Jessie has never met the victim. What links her to Margaret Kincaid, and why did the attacker let one woman live, and the other die? Nail-biting, gripping and absolutely unputdownable! At 55, Rae Padilla Francoeur had no idea that the most deeply fulfilling sexual relationship she'd ever encounter was still to come. In her memoir, *Free Fall*, Francoeur discloses her discovery of a new love after nearly two decades in a relationship that won't end, despite her need and desire to move on. Francoeur succumbs entirely to the intensely physical and stimulating relationship she finds with this new man—allowing her body and mind to truly embrace pleasure and sexual desire—and shares intimate details of a love affair that changes everything, leading her to celebrate her sexuality and rediscover herself. *Free fall*, Francoeur says, is a choice: Let go. Be here now. Open up to the possibilities. Choosing to let go is a tall order for a woman who's lived her life as a single parent, a loving and attentive mate to a man with bipolar disorder, and a creative director in a busy museum—but when she finally succeeds in choosing herself, she views life anew, sensitized by sexual desire and dramatic change. Her new lover says, "Everything is foreplay." With him, Francoeur learns to embrace her sexuality and the profound pleasure bodies bring, even as they age.

This book is about the perception of Japan in the sixty films set there by gaijin (foreigners)—outsiders who almost always do not speak or read Japanese. My area of attention is directed to films depicting post World War II Japan and the Japanese, and, in many cases, films showing how foreigners in the same time frame respond to Japan. Why have a substantial number of films been set there by strangers? As a body of work, what do they tell us about contemporary Japan and about cinema? These films certainly provide a new cultural history of the West's reaction to Japan, but, even more, they are constructions that demonstrate how the

West gazes at Japan. As such, more information can often be derived about the onlookers as on those looked-upon.

On a peaceful August morning in 1985, grim-face FBI agents led a dawn raid on an eighty-acre farm outside Rulo, Nebraska, said to be occupied by a group of religious survivalists led by the charismatic Mike Ryan. What they found on the

farm shocked even experience investigators. For months Ryan's Nebraska neighbors spoke in whispers of gunfire in the night, the disappearance of women and children, neo-Nazis and white supremacists. But little did the locals know what was happening to those Mike Ryan decided to punish for their "sins." In *Evil Harvest*, Rod Colvin re-creates a chilling story of torture, hate, and perversion, and how good, ordinary people could be pulled into a destructive, religious cult—a cult that committed unthinkable acts in the name of God. In the winter of 1981, trapped by unpassable roads, midwife Sibyl Danforth makes a life-altering decision when she performs an emergency cesarean section on a woman she fears has died of a stroke

Rates of female delinquency, especially for violent crimes, are increasing in most common law countries. At the same time the growth in cyber-bullying, especially among girls, appears to be a related global phenomenon. While the gender gap in delinquency is narrowing in Australia, United States, Canada and the United Kingdom, boys continue to dominate the youth who commit crime and have a virtual monopoly over sexually violent crimes. Indigenous youth continue to be vastly over-represented in the juvenile justice system in every Australian jurisdiction. The Indigenisation of delinquency is a persistent problem in other countries such as Canada and New Zealand. Young people who gather in public places are susceptible to being perceived as somehow threatening or riotous, attracting more than their share of public order policing. Professional football has been marred by repeated scandals involving sexual assault, violence and drunkenness. Given the cultural significance of footballers as role models to thousands, if not millions, of young men around the world, it is vitally important to address this problem. *Offending Youth* explores these key contemporary patterns of delinquency, the response to these by the juvenile justice agencies and moreover what can be done to address these problems. The book also analyses the major policy and legislative changes from the nineteenth to twenty first centuries, chiefly the shift the penal welfarism to diversion and restorative justice. Using original cases studied by Carrington twenty years ago, *Offending Youth* illustrates how penal welfarism criminalised young people from socially marginal backgrounds, especially Aboriginal children, children from single parent families, family-less children, state wards and young people living in poverty or in housing commission estates. A number of inquiries in Australia and the United Kingdom have since established that children committed to these institutions, supposedly for their own good, experienced systemic physical, sexual and psychological abuse during their institutionalisation. The book is dedicated to the survivors of these institutions who only now are receiving official recognition of the injustices they suffered. The underlying philosophy of juvenile justice has fundamentally shifted away from penal welfarism to embrace positive policy responses to juvenile crime, such as youth conferencing, cautions, warnings, restorative justice, circle sentencing and diversion examined in the concluding chapter. *Offending Youth* is aimed at a broad readership including policy makers,

juvenile justice professionals, youth workers, families, teachers, politicians as well as students and academics in criminology, policing, gender studies, masculinity studies, Indigenous studies, justice studies, youth studies and the sociology of youth and deviance more generally.

Born Eunice Waymon in Tryon, North Carolina, Nina Simone (1933-2003) began her musical life playing classical piano. A child prodigy, she wanted a career on the concert stage, but when the Curtis Institute of Music rejected her, the devastating disappointment compelled her to change direction. She turned to popular music and jazz but never abandoned her classical roots or her intense ambition. By the age of twenty six, Simone had sung at New York City's venerable Town Hall and was on her way. Tapping into newly unearthed material on Simone's family and career, Nadine Cohodas paints a luminous portrait of the singer, highlighting her tumultuous life, her innovative compositions, and the prodigious talent that matched her ambition. With precision and empathy, Cohodas weaves the story of Simone's contentious relationship with audiences and critics, her outspoken support for civil rights, her two marriages and her daughter, and, later, the sense of alienation that drove her to live abroad from 1993 until her death. Alongside these threads runs a more troubling one: Simone's increasing outbursts of rage and pain that signaled mental illness and a lifelong struggle to overcome a deep sense of personal injustice.
