What really wows iPad fans is when their touchscreen does what's impossible on other gadgets: the finger-painting app that turns a cross-country flight into a moving art class, the mini music studio (two-dozen instruments strong, each with motion-induced warble effects), and the portable fireworks display that you sculpt by swiping. Problem is, with tens of thousands of apps available for your iPad, who knows what to download? You can try to sort through a gazillion customer reviews with a mix of 5- and 1-star ratings, but that's a head-hurting time-waster. The stakes are getting higher, too: instead of freebies and 99-cent trinkets, the price of iPad apps is steadily creeping up and beyond their iPhone predecessors. Best iPad Apps guides you to the hidden treasures in the App Store's crowded aisles. Author Peter Meyers stress-tested thousands of options to put together this irresistible, page-turner of a catalog. Inside these pages, you'll find

apps as magical as the iPad itself. From there, she shares the myriad ways in which a few basic techniques can transform a simple square of cloth into an elegant wrapper. Use your folded fabrics to: Gift-wrap anything from books to flowers Bundle up a picnic Tote items around Use as a handbag or backpack Make into a pillow covering Create decorative coverings for vases, tissue boxes, and more A quiet reminder that opportunities for artistry are everywhere around you, Wrapping With Fabric is the craft book that makes it easy to bring a touch of grace and ingenuity to everyday life—and help preserve the environment, too.
