The story of a medieval Boudicca, Alfred the Great's daughter, and her struggle to restore her people and reclaim their land

AD 57: Caradoc is lost forever, betrayed to Rome and exiled in Gaul, leaving Boudica bereft, to lead the tribes of the west in an increasingly bloody resistance against Roman occupation. Only if she can drive Rome from the land will she find the peace she needs and to do that, she must raise once again the tribes of the east. Her people, the Eцени, languish in the shadow of the Legions, led by a man who proclaims himself King and yet allows slavers to trade freely in his lands. Too notorious to reclaim her own birthright, Boudica strives instead to return her daughters to their heritage. Across the sea, Boudica's half-brother, Bán, has been named traitor by both sides. He too, seeks peace on a journey that takes him from the dreaming tombs of the ancestors to the cave of a god he no longer serves. Only if Boudica and Bán meet can their people — and all of Britannia — be saved. But the new governor has been ordered to subdue the tribes or die in the attempt, and he has twenty thousand legionaries ready to stop anyone, however determined, from bringing Britain to the edge of revolt....

When the Romans occupied the southern half of Britain in AD 43, the Iceni tribe quickly allied themselves with the invaders. Having paid tribute to Rome, they continued to be ruled by their own kings. But 17 years later, when Prasutagus, the king of the Iceni, died, the Romans decided to incorporate his kingdom into the new province. When his widow Boudicca protested, she "was flogged and their daughters raped", sparking one of the most famous rebellions in history. This book tells how Boudicca raised her people and other tribes in revolt, overran the provincial towns of Camulodunum (Colchester), Londinium (London) and Verulamium (St Albans), destroyed the IX Legion, and nearly took control of the fledgling Roman province, before being finally brought to heel in a pitched battle at Mancetter.

Focusing on pivotal points in Early British History, this book examines the role of folly and fortune in major events in Britain from Caesar's expeditions to the Norman Conquest. By examining the foolishness in a bygone age, Henshall draws attention to how human behaviour - with all its erraticisms – has helped shape history.

It only takes a moment to change the world. Our past is littered with these moments; from the grandest in the land - a Queen claiming her crown at a Suffolk castle - to the humblest - a workman whitewashing religious pictures in a church. These moments in time helped create our history in East Anglia. In this book, former journalist Peter Sargent takes us on a journey in time, from the mysterious ancient figure of the Green Man in Norwich Cathedral, via the day King Charles II rode a winner at Newmarket's racetrack on to Second World War soldiers preparing for the D-Day landings in woods on the Norfolk-Suffolk border. In this series of short stories, many of which first appeared in the Eastern Daily Press newspaper, encounter famous figures who made their mark on the eastern counties. Here is Oliver Cromwell raising an army, Queen Elizabeth I making a Royal Progress, while her sister Mary plays a game of thrones, highwayman Dick Turpin goes about his nefarious business and Norfolk squire and Britain's first Prime Minister, Robert Walpole,

saves the country from financial ruin. You'll also meet less familiar figures and veer off the beaten track. Here are tales of a Cambridgeshire Iron Age 'hill fort', Norfolk's raffish 19th Century bare knuckle boxers and the sailors who fought a huge, but barely remembered, 17th Century sea battle off the Suffolk coast.

The exhilarating story of how London came to be one of the most exciting and influential places on earth—from the city's colorful, witty, and well-known mayor. Once a swampland that the Romans could hardly be bothered to conquer, over the centuries London became an incomparably vibrant metropolis that has produced a steady stream of ingenious, original, and outsized figures who have shaped the world we know. Boris Johnson, the internationally beloved mayor of London, is the best possible guide to these colorful characters and the history in which they played such lively roles. Erudite and entertaining, he narrates the story of London as a kind of relay race. Beginning with the days when “a bunch of pushy Italian immigrants” created Londinium, he passes the torch on down through the famous and the infamous, the brilliant and the bizarre—from Hadrian to Samuel Johnson to Winston Churchill to the Rolling Stones—illuminating with unforgettable clarity the era each inhabited. He also pauses to shine a light on innovations that have contributed to the city's incomparable vibrancy, from the King James Bible to the flush toilet. As wildly entertaining as it is informative, this is an irresistible account of the city and people that in large part shaped the world we know.

When Roman troops threatened to seize the wealth of the Iceni people, their queen, Boudica, retaliated by inciting a major uprising, allying her tribe with the neighbouring Trinovantes. The ensuing clash is one of the most important - and dramatic - events in the history of Britain, standing testament to what can happen when an insensitive colonial power meets determined resistance from a subjugated people head-on. In this fascinating account of a legendary figure, Miranda Aldhouse-Green raises questions about female power, colonial oppression, and whether Boudica would be seen today as a freedom fighter, terrorist or martyr.

Londinium is burning. Gaius Suetonius Paulinus, newly appointed governor of Roman Britain, is charged by an increasingly unstable Emperor Nero with a difficult task—the untamed island on the fringes of the empire must earn a profit. To do so, Suetonius pursues the last of the Druids into Wales and, along the way, subdues the fractious Celtic chieftains who sit atop a fortune in gold and rare metals. Meanwhile, in the provincial capital of Londinium, war is brewing. As Nero's corrupt tax officials strip the British tribes of their wealth and dignity, an unlikely leader arises—Queen Boudicca, chieftain of the Iceni, who unites the tribes of Britain and leads them on a furious and bloody quest for vengeance and liberty. A novel told in the form of a memoir, *Imperial Governor* is a compelling and impeccably researched portrait of Gaius Suetonius Paulinus, Roman general and first-century Governor of Britannia, who unexpectedly found himself facing one of the bloodiest rebellions against Roman rule. Shipway's masterful military

adventure has long been considered one of the most accomplished works of historical fiction set in the Roman Era, providing fascinating detail of life in Roman Britain and within the Roman Legions—and a riveting saga of uprisings, war, and conquest in the ancient world.

This book is packed with fun and exciting activities that enable the child to make sense of the world that they live in and relate it to their own experiences in order to enhance their personal and social development.

This diachronic study of Boudica serves as a sourcebook of references to Boudica in the early modern period and gives an overview of the ways in which her story was processed and exploited by the different players of the times who wanted to give credence and support to their own belief systems. The author examines the different apparatus of state ideology which processed the social, religious and political representations of Boudica for public absorption and helped form the popular myth we have of Boudica today. By exploring images of the Briton warrior queen across two reigns which witnessed an act of political union and a move from English female rule (under Elizabeth I) to British/Scottish masculine rule (under James VI & I) the author conducts a critical cartography of the ways in which gender, colonialism and nationalism crystallised around this crucial historical figure. Concentrating on the original transmission and reception of the ancient texts the author analyses the historical works of Hector Boece, Raphael Holinshed and William Camden as well as the canonical literary figures of Edmund Spenser, William Shakespeare and John Fletcher. She also looks at aspects of other primary sources not covered in previous scholarship, such as Humphrey Llwyd's Breuiary of Britayne (1573), Petruccio Ubaldini's *Le Vite delle donne illustri, del regno d'Inghilterra, e del regno di Scotia* (1588) and Edmund Bolton's *Nero Caesar* (1624). Furthermore, she incorporates archaeological research relating to Boudica.

Taking a long chronological view and a wide-ranging, interdisciplinary approach, this is an innovative and distinctive book. It is the definitive work on the posthumous reputation of the ever-popular warrior queen of the Iceni, Queen Boadicea/Boudica, exploring her presence in British historical discourse, from the early-modern rediscovery of the works of Tacitus to the first historical films of the early twentieth century. In doing so, the book seeks to demonstrate the continuity and persistence of historical ideas across time and throughout a variety of media. This focus on continuity leads into an examination of the nature of history as a cultural phenomenon and the implications this has for our own conceptions of history and its role in culture more generally. While providing contemporary contextual readings of Boudica's representations, Martha Vandrei also explores the unique nature of historical ideas as durable cultural phenomena, articulated by very different individuals over time, all of whom were nevertheless engaged in the creative process of making history. Thus this study presents a challenge to the axioms of cultural history, new historicism, and other mainstays of twentieth- and twenty-first- century historical scholarship. It shows how, long before professional

historians sought to monopolise historical practice, audiences encountered visions of past ages created by antiquaries, playwrights, poets, novelists, and artists, all of which engaged with, articulated, and even defined the meaning of "historical truth." This book argues that these individual depictions, variable audience reactions, and the abiding notion of history as truth constitute the substance of historical culture.

The second part of the stunning fictionalization of the life of Britain's warrior queen, Boudica, immerses us in a world of druids and dreamers, warriors and lovers, passion and courage. Originally a trilogy, this is now a four-part series. "Boudica" means "Bringer of Victory" (from the early Celtic word "boudeg"). She was the last defender of the Celtic culture; the only woman openly to lead her warriors into battle and to stand successfully against the might of Imperial Rome -- and triumph. Book one, *Dreaming the Eagle*, took readers from Boudica's girlhood with the Eceeni tribe to the climax of the two-day battle when she and her lover, Caradoc, faced the invading Romans. Believing her dead, Breaca's beloved brother, Bán, joined the Roman cause. *Dreaming the Bull*, the second book in this compelling series, continues the intertwined stories of Boudica, and Bán, now an officer in the Roman cavalry. They stand on opposite sides in a brutal war of attrition between the occupying army and the defeated tribes, each determined to see the other dead. In a country under occupation, Caradoc, lover to Breaca, is caught and faces the ultimate penalty. Only Bán has the power to save him, and Bán has spent the past ten years denying his past. Treachery divides these two; heroism brings them together again, changed out of all recognition -- but it may not be enough to heal the wounds. *Dreaming the Bull* is a heart-stopping story of war and of peace; of love, passion and betrayal; of druids and warring gods, where each life is sacred and each death even more so; and where Breaca and Bán learn the terrible distances they must travel to fulfill their own destinies.

In AD 60/61, Rome almost lost the province of Britain to a woman. Boudica, wife of the client king Prasutagus, fomented a rebellion that proved catastrophic for Camulodunum (Colchester), Londinium (London), and Verulamium (St Albans), destroyed part of a Roman legion, and caused the deaths of an untold number of veterans, families, soldiers, and Britons. Yet with one decisive defeat, her vision of freedom was destroyed, and the Iceni never rose again. *Boudica: Warrior Woman of Roman Britain* introduces readers to the life and literary importance of Boudica through juxtaposing her different literary characterizations with those of other women and rebel leaders. This study focuses on our earliest literary evidence, the accounts of Tacitus and Cassius Dio, and investigates their narratives alongside material evidence of late Iron Age and early Roman Britain. Throughout the book, Caitlin Gillespie draws comparative sketches between Boudica and the positive and negative examples with which readers associate her, including the prophetess Veleda, the client queen Cartimandua, and the rebel Caratacus. Literary comparisons assist in the understanding of Boudica as a

barbarian, queen, mother, commander in war, and leader of revolt. Within the ancient texts, Boudica is also used as an internal commentator on the failures of the emperor Nero, and her revolt epitomizes ongoing conflicts of gender and power at the end of the Julio-Claudian era. Both literary and archaeological sources point towards broader issues inherent in the clash between Roman and native cultures. Boudica's unique ability to unify disparate groups of Britons cemented her place in the history of Roman Britain. While details of her life remain elusive, her literary character still has more to say.

In AD 60, Boudica, war leader of the Iceni, led her people in a final bloody revolt against the occupying armies of Rome. It was the culmination of nearly twenty years of resistance against an occupying force that sought to crush a vibrant, complex civil

In SPQR, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class, democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, SPQR will to shape our view of Roman history for decades to come.
