Chapter 38- What is the Sandor Palace? Chapter 39- What is the Millennium Monument? Chapter 40- What is the Labyrinth of Budavar?

The contract of employment is the central legal institution of modern English employment law. It provides the foundation upon which most statutory employment rights are constructed; it provides a conduit for the implementation of norms negotiated in collective bargaining; and it continues to provide a contractual structure for the terms and conditions of employment for a significant proportion of the working population. The Contract of Employment provides the most ambitious and comprehensive treatise on the theoretical and doctrinal aspects of the English contract of employment in the common law world. Under the general editorship of Professor Mark Freedland, the text has been produced by a team of world leading experts in employment law. Part I examines the theoretical context to the contract of employment, studying its structure and development from a wide variety of theoretical and comparative perspectives. Part II provides an exposition and analysis of the doctrinal aspects of the contract of employment. The coverage of The Contract of Employment is unrivalled in its depth, detail and sophistication. The legal analysis is always informed by a keen sense of the modern labour market context of the contract of employment, and it is sensitive to contemporary challenges such as precariousness, the interaction with migration law, the role of legislation in the contract of employment, and the decline of collective bargaining. It will be the principal reference point for the practitioners, judges, and academics concerned with the contract of employment as a legal category, both nationally and internationally.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Chapter 37- Who is Buried in the Battenberg Mausoleum? Chapter 38- When was Construction on the Banya Bashi Mosque Completed? Chapter 39- How Long is the Iskar Reservoir?

This absorbing history of America on the eve of World War II offers a bold reassessment of the forces that led to American engagement. Robert Herzstein presents dramatic and compelling evidence that Franklin D. Roosevelt was an early, decisive, and masterful opponent of Hitler, who foresaw the true extent of the Nazi threat, both at home and abroad, and waged a brilliant battle against German propaganda. Using documents culled from Nazi archives and from information seized by the U.S. Department of Justice, Herzstein shows that extensive pro-Nazi activities in pre-war America were supported by the Nazi government. He paints a vivid portrait of Roosevelt working relentlessly to immobilize domestic fascists and anti-Semites and to alert a sleeping nation to the Nazi peril. The compelling narrative is supplemented with more than 50 illustrations - including shocking German propaganda posters published in the United States.

Fundamentals of International Migration is prepared as a textbook for undergraduate and postgraduate courses/modules. This book is a collection of articles and book chapters published in various journals and volumes carefully selected to cover a comprehensive range of topics and issues in contemporary human mobility. Students and tutors of the module would find it useful to guide and enhance classroom discussions. There are 8 parts with 28 chapters. Each part of the book begins with a list of essential and further reading to offer a wide range of views and perspectives to the students of international migration. CONTENTS PART 1: Introduction to Migration Studies Chapter 1. A record 65.3 million people were displaced last year: What does that number actually mean? - Jeffrey H. Cohen and Ibrahim Sirkeci Chapter 2. It is all about being happy in search of security - Ibrahim Sirkeci Chapter 3. Europe's migration crisis: an American perspective - Philip L. Martin Chapter 4.
