Familiar figures - missionaries, explorers, trappers, traders, prospectors, gunfighters, cowboys, and Indians - appear in these pages. So do renowned individuals such as Daniel Boone, Thomas Jefferson, Teddy Roosevelt, and John Wayne. But their stories contribute to a history of the American West that is longer, larger, and more complicated than we were once told. We are in trouble. Church attendance has dropped, spiritual life in our services has ebbed and we face a serious lack of people preparing for the ministry. Perhaps most alarming is that we have failed to reach or keep our youth. The Sunday school rooms and youth groups of many churches have no real hope or strategy in place to bring them in. Beyond this, dozens of churches close each week never to reopen, while just a few new ones are started. Without some real changes in these areas we will lose our Christian influence in this nation almost entirely in the very near future. Certainly God has not planned for the failure of His church. Western movies are full of images of swaggering outlaws brought to justice by valiant lawmen shooting them down in daring gunfights before riding off into the sunset. In reality it would not have happened that way. Real lawmen did not simply walk away from a gunfight—they had to face the legal system and justify shooting a civilian in the line of duty. Providing a more realistic view of criminal justice in the Old West, this history focuses on how criminals came into conflict with the law and how the law responded. The process is described in detail, from the common crimes of the day—such as train robbery and cattle theft—to the methods of apprehending criminals to their adjudication and punishment by incarceration, flogging or hanging. From the wild and woolly mining camps, to the rampages of the Civil War, to the many cowboys riding on the range, those frontier folks often used terms and phrases that are no longer used in everyday language today. Yet other words and sayings were often specific to certain regions and never used across the states. These terms, as in the past, are still sometimes heard in specific areas, but are "foreign" to the rest of us. From the pages of period newspapers, books, and century old dictionaries comes the slang, lingo, and phrases of the American Frontier. Even if you're not looking for a definition, you'll get a peek into the charm and character of a historic era. In addition to the hundreds of words and phrases, readers will

Caution: this book is a document from the future, on how the United States finally split into two independent republics in 2029, and its aftermath. The topic is so sensitive, that its futuristic author must be identified merely as John Doe, Ph.D. Dateline: 2029. The "One Nation, Indivisible," finally divides. - A political satire.

The book contains three bonuses: POET - A Personal Risk Management Strategy (PRMS) developed to help the reader; conscientiously lower their risk in everyday society. FBI ACTIVE SHOOTER PROTOCOL - Covers latest guidance from the FBI on Active Shooter situations. COMPANION WEBSITE (modernamericangunslinger.com) - The companion website will help keep you up to date on the latest trends on firearms discussions and provides a forum to interact with the author. The title, Modern American Gunslinger, originates from the author's stark realization that for a firearm to effectively help a person in a civilian self-defense situation, it needs to be brought to bear by the defender within a second or two of a threat materializing. In a chaotic and violent self-defense situation, time and space are commodities that the self-defender does not enjoy. In the Changing Room Before we kick off I have to say this, these are my memories, and it has to be said, some of them have been befuddled by drink and erased from the mental back-up disc due to needing more space for uploading new stuff. Phrases you will see often are 'I really can't remember' 'if I remember correctly' and 'I may be wrong'...yes I will admit it, I have been wrong before...1969 I think it was...oh and once in 1973 as well. I have checked where possible but half the time I can't be arsed so there. One area where some clever shite will immediately contradict me is numbers we took to away games, this was and still is impossible to estimate, so whilst some will try to claim we took thousands to every away match I have tried to judge by how much of the stands we filled in the days when the majority of the travelers all stood together. Characters, there have been 'legends' both on and off the pitch over the years, some have moved on to 'a better place' ...yes living in Pattaya, others have went off to the 'Big Match' in the sky where Jesus grabs the Number Nine shirt every game because he

thinks he's Alan Shearer...only for St. Peter to point out that Jackie Milburn's name is already on the team sheet as Centre Forward. No doubt someone will bemoan the absence of some of the terrace 'heroes' but I have only mentioned those I clearly remember. I was never a member of any 'crews' 'firms' or 'gangs' unless you count our collective 70's name the 'Geordie Boot Boys', I was never a ringleader or organiser I knew who they were and often found myself in their company but chose to stay incognito. This is not a book of statistics, scorers, results or team line ups, they are well documented elsewhere. These are just my, sometimes possibly inaccurate recollections of being a supporter and a footsoldier in the Black & White Army for over fifty years...and if you don't like it...then write yer own...chances are of got your money anyway ...so who's the numbnutz now?

This is a memoir presented in an anthological - like format; in other words, a collection of short stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.

Joe Meek was one of the West's irresistible characters. He was dashing, devil-may-care, cheeky, irreverent, and more fun than a playful grizzly cub. Initially, he covers his early life adventuring in the Rocky Mountains, California, and the Southwest. His firsthand account of fur-traders is priceless, as are his descriptions of the country, mountains, and the life of a mountain man. Then, Joe Meek's life as pioneer, sheriff, U.S. Marshall, and legislator is told in his own engaging voice. The turbulent years in the Northwest include the story of trappers, traders, missionaries, women, pioneers, and Native Americans that finally came together and created a state--Oregon. Thousands of black cowpunchers drove cattle up the Chisholm Trail after the Civil War, but only Nat Love wrote about his experiences. Born to slaves in Davidson County, Tennessee, the newly freed Love struck out for Kansas after the war. He was fifteen and already endowed with a reckless and romantic readiness. In wide-open Dodge City he joined up with an outfit from the Texas Panhandle to begin a career riding the range and fighting Indians, outlaws, and the elements. Years later he would say, "I had an unusually adventurous life". That was rare understatement. More characteristic was Love's claim: "I carry the marks of fourteen bullet wounds on different parts of my body, most any one of which would be sufficient to kill an ordinary man, but I am not even crippled". In 1876 a virtuoso rodeo performance in Deadwood, Dakota Territory, won him the moniker of Deadwood Dick. He became known as DD all over the West, entering into dime novels as a mysteriously dark and heroic presence. This vivid

autobiography includes encounters with Bat Masterson and Billy the Kid, a soon-after view of the Custer battlefield, and a successful courtship. Love left the range in 1890, the year of the official closing of the frontier. Then, as a Pullman train conductor he traveled his old trails, and those good times bring his story to a satisfying end.

"In the spring of 2031 terrorists detonate nuclear bombs in nine American and European cities. The military labors to establish order but is forced to commit nearly all its resources to the cities, which have become massive refugee camps. In the rural outland there is anarchy. in an area stretching from the eastern Rocky Mountains to the Pacific Ocean, and the present-day borders of Mexico and Canada. Even the great survey parties, such as Colonel William Powell's exploration of the Colorado River, came decades later. The first views of Western America's enormity by white Americans were seen by individuals of an entirely different personality, in an era that could only exist apart from its home civilization. The American mountain man, with his practical skills, could endure isolation in a way most could not. He lived in constant peril from the extremes of nature and from the hostilities of cultures unlike his own. In an emergency, assistance was rarely available, and he rarely stayed in one place long enough to build even a simple shelter. Travel in the American West relied upon a specific calendar, and to ignore it could be fatal, as many discovered, to their misfortune. Winter in the mountainous regions of the Rocky Mountains and Cascades was lethally cold to explorer and settler alike, but desert areas and grass plains presented difficulties as well. The network of rivers flowing west of the Mississippi on both sides of the continental divide served as early highways to the Wyoming and Montana regions, the Oregon Territory, Utah and Colorado, and the California southwest. Some were placidly tranquil, while others raged through the extreme elevations, all but defying navigation. Contact with indigenous tribes was problematic enough with linguistic and cultural barriers, but to survive, there required a sensitivity to tribal food sources and sacred areas when traveling. Apart from such realities, the mountain man's poetically obsessive kinship with undiscovered lands

and unspoiled nature, free from society's trappings, was secondary. The aesthetic aspect was a luxury to be enjoyed once work had been done and safety assured. Distant observers who heard or read of the journey were fascinated with the peripheral glamour, but not enamored of the work's grisly nature. A small group of individuals have come down to us as famous figures from the fur trapping era of the 19th century, but explorer and guide Jim Bridger is the most distinguished of the lot. This is because he remained in a dangerous and vast Western wilderness long after the fur trade's demise in addition to powers of observation enabling him to create accurate maps decades after passing through any terrain.

This encyclopedia is a biographical dictionary of some 1,000 women artists of the American West. The product of a twenty-year, coast-to-coast research project by authors Phil Kovinick and Marian Yoshiki-Kovinick, it offers accurate, concise introductions to women painters, graphic artists, and sculptors, all of whom achieved recognition as depicors of Western subjects between the 1840s and 1980. Their styles range from representationalism to early modernism, while their works depict everything from bold landscapes and scenes of intensive action to studies of Native Americans, pioneers, ranchers, farmers, wildlife, and flora. Each entry in the encyclopedia features the salient facts of the artist's life and career, with attention to her work with Western subject matter. Many of the entries also contain a selected list of the artist's exhibitions, current locations of her work in public collections, pertinent references, and a black-and-

Western Words has 5,000 words of cowboy language as vibrant now as it was in the old American frontier. "Within the cowman's figures of speech lie the rich field of his subtle humor and strength-unique, original, full-flavored. With his usually limited education he squeezes the juice from language, molds it to suit his needs, and is a genius at making a verb out of anything. He 'don't have to fish 'round for no decorated language to make his meanin' clear, ' and has little patience with the man who 'spouts words that run eight to the pound.' Perhaps the strength and originality in his speech are due to the solitude, the nearness of the stars, the bigness of the country, and the far horizons-all of which give him a chance to think clearly and go into the depths of his own mind. Wide spaces 'don't breed chatterboxes.' On his long and lonely rides, he is not forced to listen to the scandal and idle gossip that dwarf a man's mind. Quite frequently he has no one to talk to but a horse..." -from the author's Introduction

This book, originally published in 1944, has 5,000 words of cowboy language as vibrant now as it was in the old American frontier. The native cowman forged his own language. Like other men of the soil, he created similes & metaphors, salty & unrefined, but sparkling with stimulating vigor. In the early days, many men with college degrees came west, fell in love with the freedom of range life, & remained. Not bound by conventions, they soon drifted into the infectious parlance of the cow country. This
