

Ecovillaggi E Cohousing Dove Sono Chi Li Anima Come Farne Parte O Realizzarne Di Nuovi

Examines from the point of view of philosophy a variety of topics, including abortion, war, old age, death, environmentalism, and Christianity

Pezzullo examines these tours as a tactic of resistance and for their potential in reducing the cultural and physical distance between hosts and visitors."--BOOK JACKET.

"The Corona crisis and the Need for a Great Reset" is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset. Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out.

Le nostre scelte alimentari sono parte integrante della nostra natura e cultura. Soprattutto oggi, in cui la mancanza di tempo e l'onnipresenza di prodotti confezionati rendono alienante e irresponsabile il nostro rapporto con il cibo. Basandosi sull'etica della permacultura e del veganismo, Graham Burnett, leader della permacultura vegan a livello mondiale, ci propone strumenti ed esperienze pratiche per coltivare e raccogliere il nostro cibo; per migliorare l'alimentazione, la salute e il benessere personali; per adottare uno stile di vita creativo e a basso impatto ecologico; per riprogettare le nostre abitazioni, ma anche giardini, orti, e persino boschi alimentari; per unire e rendere sempre più coesa e attiva la comunità a cui apparteniamo. Ogni capitolo è arricchito da squisite ricette dell'orto cruelty-free, con ortaggi, legumi, cereali e frutta, ma anche semi, bacche, germogli ed erbe, autoprodotti e a chilometro zero.

Le pratiche e le esperienze cooperative che sono presentate in questo testo rappresentano i percorsi di vita e di relazioni con l'economia di mercato delle imprese cooperative. La loro caratteristica di percorsi da condursi anche e soprattutto in direzione della comprensione delle criticità che – insieme alle potenzialità – si presentano per l'impresa cooperativa. Una comprensione, effettuata in termini consapevoli, da coloro che, attraverso un percorso qualificato di studio post universitario, hanno inteso porre di fronte a sé stessi e, quindi, anche alla considerazione di altri fattori, i rischi e le potenzialità di diffusione di processi di innovazione nella economia di mercato, che le imprese cooperative, nei diversi settori operativi, incontrano quotidianamente, cambiando ed innovando sempre sé stesse.

Based on Dharma talks by Zen Master Thich Nhat Hanh and insights from participants in retreats for healing the inner child, this book is an exciting contribution to the growing trend of using Buddhist practices to encourage mental health and wellness. Reconciliation focuses on the theme of mindful awareness of our emotions and healing our relationships, as well as meditations and exercises to acknowledge and transform the hurt that many of us experienced as children. The book shows how anger, sadness, and fear can become joy and tranquility by learning to breathe with, explore, meditate, and speak about our strong emotions. Reconciliation offers specific practices designed to bring healing and release for people suffering from childhood trauma. The book is written for a wide audience and accessible to people of all backgrounds and spiritual traditions.

How to Walk is the fourth title in Parallax's popular Mindfulness Essentials Series of how-to titles by Zen Master Thich Nhat Hanh, introducing beginners and reminding seasoned practitioners of the essentials of mindfulness practice. Slow, concentrated walking while focusing on in- and out-breaths allows for a unique opportunity to be in the present. There is no need to arrive somewhere—each step is the arrival to concentration, joy, insight, and the momentary enlightenment of aliveness. When your foot touches the Earth with awareness, you make yourself alive and the Earth real, and you forget for one minute the searching, rushing, and longing that rob our daily lives of awareness and cause us to "sleepwalk" through life. Thich Nhat Hanh shares amusing stories of the impact mindful walking has on both the walker and those who notice him, and shows how mindful walking can be a technique for diminishing depression, recapturing wonder, and expressing gratitude. Pocket-sized, with original two color illustrations by Jason DeAntonis, How to Walk k is a unique gift for all ages, sharing a simple practice that can have a profound effect on practitioners.

This book presents 50 case studies of contemporary co-housing projects spread all over the world to show how communities of shared living have become a global phenomenon that can serve as a tool to promote social and urban sustainability. By presenting evidence that shared housing experiences are capable of revitalizing sterile urban fabrics and promoting social sustainable practices, the volume situates co-housing experiences as microscale responses to the macroscale challenges posed by environmental degradation and the decline of communitarian ways of living. The volume also reviews the most famous typologies of shared living in different parts of the world across human history. By analyzing historical experiences in different regions of Africa, Americas, Asia, Europe and Oceania, the author shows that living together is part of a historical culture of sharing that is being rediscovered all over the world by people who activate public spaces, work in shared offices or live in contractual communities. The Co-Housing Phenomenon – Environmental Alliance in Times of Changes will be of interest to both professionals and scholars involved in urban design, urban planning and architecture, especially those in the field of sustainable urbanism. It will also be a valuable resource for public agents and civil society organizations dealing with housing, social, environmental and sustainability policies.

Zen To Done is a simple system to help you get organized and productive--keeping your life saner and less stressed--with a set of simple habits. Zen To Done takes some of the best aspects of popular productivity systems (GTD, Stephen Covey, and others), then combines and simplifies them, giving you just what you need--and no more. Simply put, ZTD teaches you: (1) The key habits needed to be organized and productive. (2) How to implement these habits. (3) How to organize the habits into a simple system that will keep everything in your life in its place. (4) How to simplify what you need to do. (5) How to implement an even simpler version called Minimal ZTD. If you're tired of doing things the hard way and just want a simple, easy, yet effective way to accomplish your goals, Zen To Done is just what you need.

For the past half-century, the planning system has operated on the basis of a growth-dependence paradigm. It has been based on market-led urban development and has sought to provide community benefits from a share of development profits. However, we do not live in a world where growth can be taken for granted and we are more aware than previously of the implications for well-being and sustainability. This timely book provides a fresh analysis of the limitations of the growth-dependence planning paradigm. It considers alternative urban development models, ways of protecting and enhancing existing low value land uses and means of managing community assets within the built environment. In each case it spells out the role that a reformed planning system could play in establishing a new agenda for planning. The book will be of relevance to planning students, planning professionals and planning academics, as well as urban policy specialists more generally.

Zen Master Thich Nhat Hanh's key teaching is that through mindfulness, we can learn to live in the present moment and develop a sense of peace. Accessible to those new to Buddhist teachings as well as more experienced practitioners, *Happiness* is the only book that collects all practices adapted and developed by Thich Nhat Hanh in his more than 60 years as a Buddhist monk and teacher. With sections on Daily Practice, Relationships, Physical Practices, Mindful Eating, and Practicing with Children, *Happiness* is a comprehensive guide to living our daily lives with full awareness, whether we are working, eating, parenting, driving, walking, or simply sitting and breathing. Thich Nhat Hanh says, "Enjoy your practice with a relaxed and gentle attitude, with an open mind and receptive heart.... Joy and happiness are available to you in the here and now."

Trattare del tema della riqualificazione dei borghi italiani è riprendere le coordinate geografiche della storia del nostro Paese. Protagonisti delle attività presentate in questo libro sono persone e comunità che, quasi sempre da sole, le hanno ideate e svolte. Esse rappresentano la capacità dei cittadini di definire autonomamente il proprio presente e futuro anche al di fuori di comportamenti uniformati. Una sorta di mappa attraverso le esperienze concrete e funzionanti, spunto per chiunque volesse attuare processi di riuso e riqualificazione "dal basso". Un viaggio nell'intera penisola con puntate in Europa, seguendo idee, progetti e azioni che permettono di tradurre in realtà la bellezza e il fascino dell'utopia.

Ecovillaggi e cohousing. Dove sono, chi li anima, come farne parte o realizzarne di nuovi
Ecovillaggi e Cohousing Dove sono, chi li anima, come farne parte o realizzarne di nuovi
Terra Nuova Edizioni
An intentional community is a group of people who have chosen to live or work together in pursuit of a common ideal or vision. An ecovillage is a village-scale intentional community that intends to create, ecological, social, economic, and spiritual sustainability over several generations. The 90s saw a revitalized surge of interest in intentional communities and ecovillages in North America: the number of intentional communities listed in the Communities Directory increased 60 percent between 1990 and 1995. But only 10 percent of the actual number of forming-community groups actually succeeded. Ninety percent failed, often in conflict and heartbreak. After visiting and interviewing founders of dozens of successful and failed communities, along with her own forming-community experiences, the author concluded that "the successful 10 percent" had all done the same five or six things right, and "the unsuccessful 90 percent" had made the same handful of mistakes. Recognizing that a wealth of wisdom were contained in these experiences, she set out to distill and capture them in one place. *Creating a Life Together* is the only resource available that provides step-by-step, practical "how-to" information on how to launch and sustain a successful ecovillage or intentional community. Through anecdotes, stories, and cautionary tales about real communities, and by profiling seven successful communities in depth, the book examines "the successful 10 percent" and why 90 percent fail; the role of community founders; getting a group off to a good start; vision and vision documents; decision-making and governance; agreements; legal options; finding, financing, and developing land; structuring a community economy; selecting new members; and communication, process, and dealing well with conflict. Sample vision documents, community agreements, and visioning exercises are included, along with abundant resources for learning more.

Bl.a. om bofællesskaberne: Trudslund, Gyndbjerg, Bakken, Stavnbandet, Sol og Vind, Overdrevet, Jerngården, Jystrup Savværk, Mejdal I & II, Jernstøberiet, Tornevangsgården, Drejbænken, Bondebjerget m.fl., samt bofællesskabernes historie

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuted into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

The metropolis of the future — as perceived by architect Hugh Ferriss in 1929 — was both generous and prophetic in vision. This illustrated essay on the modern city and its future features 59 illustrations.

A simple step-by-step guide to biodynamics This is the easy guide to getting luscious fruit and vegetables and gorgeous flowers by harnessing the rhythms of nature and using all-natural methods. For gardeners looking for a self-sufficient, ethical approach that produces great results, biodynamics is the ultimate form of organic gardening. DK's trademark visual approach and practical advice shows the home gardener how to get the best from their garden using biodynamic methods. *Biodynamic Gardening* is the perfect introduction to this ultra-green method, explaining how it works by improving soil health and performing key tasks at optimal times. Focused chapters show you what to do in the garden each season, including preparing and feeding the soil, caring for plants, keeping a balanced garden ecosystem, and harvesting at the best times for the best flavor. It also includes step-by-step features explain how to make the special soil preparations biodynamic gardening is so famous for.

"This book is a page-turner - endlessly fascinating, totally compelling, and incredibly informative. I could not put it down." rory Freedman, Co-author of New York Times best seller *Skinny Bitch*.

Enjoy the fun and intrigue of unraveling nature's clues that fill you with awe, inspiration, and healing. This fascinating book combines ancient wisdom with modern research, and science with imagination. Connect to the wonder you felt as a child, and emulate how Nature wisely deals with change and adversity. Nature is the ultimate example in how to live well and thrive. Albert Einstein said, "look deep into nature, and then you will understand everything better." This fascinating book will arouse your curiosity by combining ancient wisdom with modern research, and imagination with science, to help you love Nature and your food in a whole new way. You'll discover how to . . .Recognize divine designs, hidden in plain sight, to forge a more profound mind-body-soul connection with the environment Look at food in new (actually, ancient) ways and choose self life over shelf life Cope with change, challenges, and time pressures by asking, What would Nature do? Become aware of what society is doing to the environment, and learn easy green solutions to save money and help the planet.Exercises throughout the book will empower you to tune in to Nature's wisdom in order to develop a healthier mind, body, soul, and planet."With a dash of tongue-in-cheek cheer, actress and PhD-carrying naturopath Wilkes offers a thorough, clear-cut and well-illustrated introduction to holistic medicine, natural eating and the benefits of mindfulness."this wise, brave, magically simple and inspiring book will help us all reconnect with the soul of nature, and work together to preserve the environment and the human adventure."- Andrew Harvey, New York Times best selling author Author of The Hope a Guide to Sacred Activism'.

Abitare è una delle principali caratteristiche dell'essere umano e la casa è il luogo umano per eccellenza. Domandare a qualcuno «dove vivi?» vuol dire chiedere notizie sul posto in cui si svolge la sua attività quotidiana. Ma soprattutto su quello che dà senso alla sua vita.Servendosi anche di un suggestivo giro del mondo tra le architetture vernacolari, il libro va in cerca del senso profondo dell'abitare. Dalle Ande peruviane alle montagne indiane, passando per il Vietnam e la Mongolia, Andrea Staid ci racconta che una palafitta sul lago Inle in Myanmar si regge su pali di bambù che vanno controllati e spesso cambiati, oppure che le travi del pavimento di una casa nelle montagne del Laos invecchiano, respirano e vanno revisionate.Ci racconta quindi che le case sono vive.In questo libro non ci sono solo esperienze lontane, perché dai viaggi c'è sempre un ritorno e ovunque sta nascendo la consapevolezza di quanto sia importante vivere (dunque abitare) in un modo più sostenibile ed ecologico. Da questa necessità nascono le esperienze di autocostruzione che stanno crescendo in tutta Italia e la scelta dell'autore di abitare in un rapporto diretto con la natura, in una casa che di natura si nutre e che è stata costruita assecondandone i ritmi e gli spazi."La casa vivente" unisce antropologia ed esperienza personale, viaggio ed etnografia e ci invita a ripensare il nostro modo di immaginarci nello spazio.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

The "italian style" is the aspect that makes italian products immediately recognizable and the junction between culture and italian economy. In this book the author describes the fundamental components that define italian style in manufacturing, work and economics and the cultural and social origins of the attention to aesthetic results and quality as an important component of italian style. Fashion, food, furniture, automation and the many aspects of italian economy, with the importance of the design, reveal a lifestyle that shows us how another style of consumption is possibile, linked to quality and durability and not to quantity and waste. The relation between economy and culture it allows us to describe a society in which the values of tradition are maintained and meet innovation in a sustainable and generative way of quality.

Everett Ruess, the young poet and artist who disappeared into the desert canyonlands of Utah in 1934, has become widely known posthumously as the spokesman for the spirit of the high desert. Many have been inspired by his intense search for adventure, leaving behind the amenities of a comfortable life. His search for ultimate beauty and oneness with nature is chronicled in this remarkable collection of letters to family and friends.

Planting Seeds: Practicing Mindfulness with Children is the fruit of decades of development and innovation in the Plum Village community's collective practice with children. Based on Thich Nhat Hanh's thirty years of teaching mindfulness and compassion to parents, teachers, and children, the book and enclosed CD cover a wide range of contemplative and fun activities parents and educators can do with their children or students. The activities are designed to help relieve stress, increase concentration, nourish gratitude and confidence, deal with difficult emotions, touch our interconnection with nature, and improve communication. Planting Seeds offers insight, concrete activities, and curricula that parents and educators can apply in school settings, in their local communities or at home, in a way that is meaningful and inviting to children. The key practices presented include mindful breathing and walking, inviting the bell, pebble meditation, the Two Promises or ethical guidelines for children, children's versions of Touching the Earth and Deep Relaxation, eating meditation and dealing with conflict and strong emotions. Also included, are the lyrics to the songs on the enclosed CD that summarize and highlight the key teachings, as well as a chapter on dealing effectively with conflict in the classroom or difficult

group dynamics, based on a conference with Thich Nhat Hanh, teachers and students. The accompanying CD has inspiring recordings of all the songs in the book as well as a guided pebble meditation, total relaxation, and children's touching the earth. Beautiful, color illustrations by Wietske Vriezen Illustrator of Mindful Movements (ISBN-13: 978-1-888375-79-4) accompany the various practices. Any adult wishing to plant seeds of peace, relaxation, and awareness in children will find this book and CD helpful. It is full of wisdom on how to simply be with children and nourish their compassion for themselves and others. Illustrated by Wietske Vriezen Illustrator of Mindful Movements (Mindful Movements – Ten Exercise for Well Being, ISBN-13: 978-1-888375-79-4). Includes 1 audio CD.

A provocative and timely call for a moral approach to economics, drawing on philosophers, political theorists, writers, and economists from Aristotle to Marx to Keynes. What constitutes the good life? What is the true value of money? Why do we work such long hours merely to acquire greater wealth? These are some of the questions that many asked themselves when the financial system crashed in 2008. This book tackles such questions head-on. The authors begin with the great economist John Maynard Keynes. In 1930 Keynes predicted that, within a century, per capita income would steadily rise, people's basic needs would be met, and no one would have to work more than fifteen hours a week. Clearly, he was wrong: though income has increased as he envisioned, our wants have seemingly gone unsatisfied, and we continue to work long hours. The Skidelskys explain why Keynes was mistaken. Then, arguing from the premise that economics is a moral science, they trace the concept of the good life from Aristotle to the present and show how our lives over the last half century have strayed from that ideal. Finally, they issue a call to think anew about what really matters in our lives and how to attain it. *How Much Is Enough?* is that rarity, a work of deep intelligence and ethical commitment accessible to all readers. It will be lauded, debated, cited, and criticized. It will not be ignored.

This report updates the 2001 Guidance Manual for Governments on Extended Producer Responsibility (EPR), which provided a broad overview of the key issues, general considerations, and the potential benefits and costs associated with producer responsibility for managing the waste.

Gated communities are a new "hot button" in many North American cities. From Boston to Los Angeles and from Miami to Toronto citizens are taking sides in the debate over whether any neighborhood should be walled and gated, preventing intrusion or inspection by outsiders. This debate has intensified since the hard cover edition of this book was published in 1997. Since then the number of gated communities has risen dramatically. In fact, new homes in over 40 percent of planned developments are gated in the West, the South, and southeastern parts of the United States. Opposition to this phenomenon is growing too. In the small and relatively homogenous town of Worcester, Massachusetts, a band of college students from Brown University and the University of Chicago picketed the Wexford Village in November of 1998 waving placards that read "Gates Divide." These students are symbolic of a much larger wave of citizens asking questions about the need for and the social values of gates that divide one portion of a community from another.

The Weather Makers catapulted Tim Flannery's name into global consciousness; now he is known as one of the world's foremost experts on climate change. But he didn't just come into his knowledge and interest overnight. With its selection of exhilarating essays and articles written over the past 25 years, *An Explorer's Notebook* charts the evolution of a young scientist doing fieldwork in remote locations to the major thinker who has changed the way we all view our actions in the face of global warming. Flannery writes about his journeys in the jungles of New Guinea and Irian Jaya, about the extraordinary people he met and the species he discovered. He writes about matters as wide-ranging as love, insects, population, water and the stresses we put on the environment. He explores how we can predict our own future by understanding the profound history of life on Earth. He also chronicles the recent seismic shift in the world's attitude toward climate change, noting the deep impact felt by all of us. He writes on a wide variety of topics, from the huge increase in the number of accidental falls experienced by Winnipeg pedestrians each winter to the huge decrease in traditional circumcisions in the African Samburun tribe—a decrease that is devastating the tribe's social order. For the millions who read *The Weather Makers* and for those interested in wildlife or the environment -- and in wonderful storytelling -- *An Explorer's Notebook* is a must-read book.

Sono sempre più numerosi giovani e meno giovani che decidono di andare a vivere in un cohousing o in un ecovillaggio, una scelta dettata non solo da motivi economici (vivere insieme costa decisamente meno), ma anche dal crescente bisogno di uno stile di vita sobrio e a basso impatto ambientale, basato su relazioni autentiche e di solidarietà. Il panorama delle esperienze comunitarie, in Italia e all'estero, è assai ricco e variegato. Sempre più spesso si riconosce il valore sociale oltre che ambientale del vivere insieme, tanto che anche in Italia sono in crescita le amministrazioni locali che promuovono bandi per l'assegnazione di terreni o edifici destinati al cosiddetto housing sociale; è successo in Lombardia, Toscana, Emilia-Romagna e altrove. L'autrice racconta la storia e soprattutto il presente di ecovillaggi e cohousing già attivi in Italia, dei numerosi progetti in via di realizzazione e aperti a nuove adesioni, e delle esperienze internazionali più significative. Quella che emerge è una mappa completa e variegata, utile per chi vuole approfondire una tematica ancora poco conosciuta oppure per chi ha già avviato una riflessione e un percorso, e che nel libro può trovare suggestioni, stimoli e contatti per proseguire il proprio cammino.

This volume has a double purpose. First of all, it follows an Italian tradition of thought that began in the 15th and 16th centuries as Civic Humanism and continued up until the golden period of Italian Enlightenment as represented by the Schools of Milan and Naples. Its main contribution to the history of economic thought is its conception of the market as a place centered on the principle of reciprocity and civil virtues. This book explains why the civil approach to economics disappeared from cultural debates, scientific enquiries and the public arena at the end of the 18th century, only to surface again in more recent times. Secondly, the book draws attention to a new reading of the whole of economic reality. Indeed, the civil economy in one sense is mainly a cultural perspective from which it is possible to interpret the entire economic discourse. If a theory is considered as substantially a point of view on reality, then this cultural perspective can also set the basis for a diverse economic theory. Where does the key element of such diversity lie? It lies in the attempt to integrate within the economic system the three basic principles of any social order: the principle of exchange of equivalents, the principle of redistribution and the principle of reciprocity. Though this book draws on the history of economic ideas, it focuses on the present day from an ancient perspective in order to find convincing answers to the new questions arising in the era of globalization.

Recommended by Amazon, Barnes & Noble, Entertainment Weekly, Popsugar, Goodreads, CrimeReads, and BookBub. Keep your enemies close and your sister closer. Though Chloe was the younger of the two Taylor sisters, she always seemed to be the one in charge. She was the honor roll student with big dreams and an even bigger work ethic. Nicky—always restless and more than a little reckless—was the opposite of her ambitious little sister. She floated from job to job and man to man, and stayed close to home in Cleveland. For a while, it seemed that both sisters had found happiness. Chloe earned a scholarship to an Ivy League school and moved to New York City, where she landed a coveted publishing job. Nicky married promising young attorney Adam Macintosh and gave birth to a baby boy they named Ethan. The Taylor sisters became virtual strangers. Now, more than fifteen years later, their lives are drastically different—and Chloe is married to Adam. When he's murdered by an intruder at the

couple's East Hampton beach house, Chloe reluctantly allows her teenage stepson's biological mother—her estranged sister, Nicky—back into her life. But when the police begin to treat Ethan as a suspect in his father's death, the two sisters are forced to unite . . . and to confront the truth behind family secrets they have tried to bury in the past.
