A Best Memoir of 2015, “This memoir is compulsively readable and full of humor and heart.”—AdoptiveFamilies.com
“A punk rock Scheherazade” (Margaret Cho) shares the zigzagging path that took her from harem member to PTA member... In her younger years, Jillian Lauren was a college dropout, a drug addict, and an international concubine in the Prince of Brunei’s harem, an experience she immortalized in in her bestselling memoir, *SOME GIRLS*. In her thirties, Jillian's most radical act was learning the steadying power of love when she and her rock star husband adopt an Ethiopian child with special needs. After Jillian loses a close friend to drugs, she herself is saved by her fierce, bold love for her son as she fights to make him—and herself—feel safe and at home in the world. Exploring complex ideas of identity and reinvention, *Everything You Ever Wanted* is a must-read for everyone, especially every mother, who has ever hoped for a second act in life.

format. So boys 10 and up can learn about health, hygiene, sexuality, and more in a way that's not embarrassing or tedious, but real, engaging, and enlightening. A recurring "Puberty Goggles" feature pokes gentle fun at the way a testosterone-tormented tween views himself and the world around him. The book also explores current hot-button topics from social media and cyberbullying to respecting women. Whatever its faults, the Indian bureaucracy cannot be accused of bias when it comes to confounding those who have to deal with it. Veteran insiders who return to it with their petitions after retirement are as clueless about how it functions as freshly minted supplicants. Outsiders in any case have little knowledge of who is responsible for what and why or how to navigate that critical proposal through the treacherous shoals of the secretariat. At the top of the heap is the fast-tracked elite civil servant, who belongs to a group of generalist and specialized services selected through a competitive examination. The aura of the Indian Administrative Service has remained intact over the years. Lack of awe, bordering on civilized disrespect, is a most effective learning tool. In this humorous, practical book, T.R. Raghunandan aims to deconstruct the structure of the bureaucracy and how it functions, for the understanding of the common person and replaces the anxiety that people feel when they step into a government office with a healthy dollop of irreverence.

A fun, illustrated history of the umbrella's surprising place in life and literature Humans have been making, using, perfecting, and decorating umbrellas for millennia--holding them over the heads of rulers, signalling class distinctions, and exploring their full imaginative potential in folk tales and novels. In the spirit of the best literary gift books, Brolliology is a beautifully designed and illustrated tour through literature and history. It surprises us with the crucial role that the oft-overlooked umbrella has played over centuries--and not just in keeping us dry. Marion Rankine elevates umbrellas to their rightful place as an object worthy of philosophical inquiry. As Rankine points out, many others have tried. Derrida sought to find the meaning (or lack thereof) behind an umbrella mentioned in Nietzsche's notes, Robert Louis Stevenson wrote essays on the handy object, and Dickens used umbrellas as a narrative device for just about everything. She tackles the gender, class, and social connotations of carrying an umbrella and helps us realize our deep connection to this most forgettable everyday object--which we only think of

A jaw-dropping story of how a girl from the suburbs ends up in a prince's harem, and emerges from the secret Xanadu both richer and wiser At eighteen, Jillian Lauren was an NYU theater school dropout with a tip about an upcoming audition. The "casting director" told her that a rich businessman in Singapore would pay pretty American girls \$20,000 if they stayed for two weeks to spice up his parties. Soon, Jillian was on a plane to Borneo, where she would spend the next eighteen months in the harem of Prince Jefri Bolkiah, youngest brother of the Sultan of Brunei, leaving behind her gritty East Village apartment for a palace with rugs laced with gold and trading her band of artist friends for a coterie of backstabbing beauties. More than just a sexy read set in an exotic land, *Some Girls* is also the story of how a rebellious teen found herself-and the courage to meet her birth mother and eventually adopt a baby boy.

The Universe is a beautiful, awe-inspiring place - from glowing nebulae to the sweeping majesty of the Milky Way, from complex cloud patterns on Jupiter to the rippling curtains of aurorae. But many of us struggle to grasp the complex ideas and science behind it all, or to see how it relates to our everyday lives. In this mind-expanding book, Professor Andrew Newsam draws on his vast expertise to show us what's going on beyond the limits of our planet, from our solar system to distant galaxies - and what this tells us about our own place in this vast expanse called 'the Universe'. Will our explorations of our neighbouring planets reveal life or a new place to settle? What happens inside black holes? Is dark matter real? Would a solar flare have a devastating effect on our planet? Could we do anything to prevent being wiped out

One of the world's most beloved and bestselling writers takes his ultimate journey -- into the most intriguing and intractable questions that science seeks to answer. In *A Walk in the Woods*, Bill Bryson trekked the Appalachian Trail -- well, most of it. In *In A Sunburned Country*, he confronted some of the most lethal wildlife Australia has to offer. Now, in his biggest book, he confronts his greatest challenge: to understand -- and, if possible, answer -- the oldest, biggest questions we have posed about the universe and ourselves. Taking as territory everything from the Big Bang to the rise of civilization, Bryson seeks to understand how we got from there being nothing at all to there being us. To that end, he has attached himself to a host of the world's most advanced (and often obsessed) archaeologists, anthropologists, and mathematicians, travelling to their offices, laboratories, and field camps. He has read (or tried to read) their books, pestered them with questions, apprenticed himself to their powerful minds. *A Short*
