

Guided Reading Taking On Segregation

Two girls, one white and one black, gradually get to know each other as they sit on the fence that divides their town.

On his first train ride, Michael meets a new friend from the "whites only" car--but finds they can hang together for only part of the trip--in the last story in a trilogy about the author's life growing up in the segregated South. Michael and his granddaddy always stop working to watch the trains as they rush by their Alabama farm on the way to distant places. One day Michael gets what he's always dreamed of: his first train journey, to visit cousins in Ohio! Boarding the train in the bustling station, Michael and his grandma follow the conductor to the car with the "colored only" sign. But when the train pulls out of Atlanta, the signs come down, and a boy from the next car runs up to Michael, inviting him to explore. The two new friends happily scour the train together and play in Bobby Ray's car--until the conductor calls out "Chattanooga!" and abruptly ushers Michael back to his grandma for the rest of the ride. How could the rules be so changeable from state to state--and so unfair? Based on author Michael Bandy's own recollections of taking the train as a boy during the segregation era, this story of a child's magical first experience is intercut with a sense of baffling injustice, offering both a hopeful tale of friendship and a window into a dark period of history that still resonates today.

The author describes the threats and emotional abuse she endured from white student and adults along with her fears of endangering her family as she committed to being one of the first African American students to integrate Central High School in Little Rock, Arkansas in 1957.

Find out about the life of Rosa Parks and how her actions in Montgomery, Alabama, in 1955 helped end racial segregation in America. This book follows the same standards as other National Geographic Readers with the same careful text, brilliant photographs, and fun approach that kids love. The life story of Rosa Parks has enduring lessons to teach us and this biography should appeal to kids, parents, and teachers.

Category: Biography "Please, God, try to forgive those people. Because even if they say those bad things, They don't know what they're doing." This is the true story of an extraordinary 6-year-old who helped shape history when she became the first African-American sent to first grade in an all white school. This moving book captures the courage of a little girl standing alone in the face of racism. "Ford's moving watercolor paintings...capture the...warmth of Ruby's family and community, the immense powers against her, and her shining inner strength." --Booklist "Teachers will welcome [this treatment of]...a simple, clear biography of Rosa Parks...The male narrator reads clearly and unemotionally, presenting the facts as Adler reports them...A good addition to collections." - School Library Journal

Congressman John Lewis (GA-5) is an American icon, one of the key figures of the civil rights movement. His commitment to justice and nonviolence has taken him from an Alabama sharecropper's farm to the halls of Congress, from a segregated schoolroom to the 1963 March on Washington, and from receiving beatings from state troopers to receiving the Medal of Freedom from the first African-American president. Now, to share his remarkable story with new generations, Lewis presents *March*, a graphic novel trilogy, in collaboration with co-writer Andrew Aydin and New York Times best-selling artist Nate Powell (winner of the Eisner Award and LA Times Book Prize finalist for *Swallow Me Whole*). *March* is a vivid first-hand account of John Lewis' lifelong struggle for civil and human rights, meditating in the modern age on the distance traveled since the days of Jim Crow and segregation. Rooted in Lewis' personal story, it also reflects on the highs and lows of the broader civil rights movement. Book One spans John Lewis' youth in rural Alabama, his life-changing meeting with Martin Luther King, Jr., the birth of the Nashville Student Movement, and their battle to tear down segregation through nonviolent lunch counter sit-ins, building to a stunning climax on the steps of City Hall. Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book *Martin Luther King and the Montgomery Story*. Now, his own comics bring those days to life for a new audience, testifying to a movement whose echoes will be heard for generations.

A powerful illustrated history of the Great Migration and its sweeping impact on Black and American culture, from Reconstruction to the rise of hip hop. Over the course of six decades, an unprecedented wave of Black Americans left the South and spread across the nation in search of a better life--a migration that sparked stunning demographic and cultural changes in twentieth-century America. Through gripping and accessible historical narrative paired with illustrations, author and activist Blair Imani examines the largely overlooked impact of The Great Migration and how it affected--and continues to affect--Black identity and America as a whole. *Making Our Way Home* explores issues like voting rights, domestic terrorism, discrimination, and segregation alongside the flourishing of arts and culture, activism, and civil rights. Imani shows how these influences shaped America's workforce and wealth distribution by featuring the stories of notable people and events, relevant data, and family histories. The experiences of prominent figures such as James Baldwin, Fannie Lou Hamer, El Hajj Malik El Shabazz (Malcolm X), Ella Baker, and others are woven into the larger historical and cultural narratives of the Great Migration to create a truly singular record of this powerful journey.

One summer day in 1959, nine-year-old Ron McNair, who dreams of becoming a pilot, walks into the Lake City, South Carolina, public library and insists on checking out some books, despite the rule that only white people can have library cards. Includes facts about McNair, who grew up to be an astronaut.

"A searing and emotionally gripping account of a young black girl growing up to become a strong black woman during the most difficult time of racial segregation."—Professor Charles Ogletree, Harvard Law School "Provides important context for an important moment in America's history."—Associated Press When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the "Little Rock Nine," as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament

not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history.

Through moving prose and beautiful watercolors, award-winning author-illustrator duo collaborate to tell the poignant tale of a spirited young girl who comes face to face with segregation in her southern town. There's a place in this 1950s southern town where all are welcome, no matter what their skin color...and 'Tricia Ann knows exactly how to get there. To her, it's someplace special and she's bursting to go by herself. When her grandmother sees that she's ready to take such a big step, 'Tricia Ann hurries to catch the bus heading downtown. But unlike the white passengers, she must sit in the back behind the Jim Crow sign and wonder why life's so unfair. Still, for each hurtful sign seen and painful comment heard, there's a friend around the corner reminding 'Tricia Ann that she's not alone. And even her grandmother's words—"You are somebody, a human being—no better, no worse than anybody else in this world"—echo in her head, lifting her spirits and pushing her forward.

A history of America's civil rights movement traces the pivotal influence of sexual violence that victimized African American women for centuries, revealing Rosa Parks's contributions as an anti-rape activist years before her heroic bus protest.

Both an unflinching indictment of past wrongs and an impassioned call to America to educate its citizens about the history of Africa and its people, *The Debt* says in no uncertain terms what white America owes blacks—and what blacks owe themselves. In this powerful and controversial book, distinguished African-American political leader and thinker Randall Robinson argues for the restoration of the rich history that slavery and segregation severed. Drawing from research and personal experience, he shows that only by reclaiming their lost past and proud heritage can blacks lay the foundation for their future. And white Americans can begin making reparations for slavery and the century of racial discrimination that followed with monetary restitution, educational programs, and the kinds of equal opportunities that will ensure the social and economic success of all citizens. "Engaging...Robinson continues an important conversation...His anecdotes support his attempts to reclaim African American heritage and empower African Americans."—*The Washington Post*

William Edward Burghardt Du Bois was a black civil rights activist, leader, Pan-Africanist, sociologist, educator, historian, writer, editor, poet, and scholar. He became a naturalized citizen of Ghana in 1963 at the age of 95. "The time has not yet come for a complete history of the Negro peoples. Archaeological research in Africa has just begun, and many sources of information in Arabian, Portuguese, and other tongues are not fully at our command; and, too, it must frankly be confessed, racial prejudice against darker peoples is still too strong in so-called civilized centers for judicial appraisal of the peoples of Africa. Much intensive monographic work in history and science is needed to clear mooted points and quiet the controversialist who mistakes present personal desire for scientific proof. Nevertheless, I have not been able to withstand the temptation to essay such short general statement of the main known facts and their fair interpretation as shall enable the general reader to know as men a sixth or more of the human race. Manifestly so short a story must be mainly conclusions and generalizations with but meager indication of authorities and underlying arguments." - W. E. B. Du Bois

Combining biography with regional and national history, Dan T. Carter chronicles the dramatic rise and fall of George Wallace, a populist who abandoned his ideals to become a national symbol of racism, and later begged for forgiveness. In *The Politics of Rage*, Carter argues persuasively that the four-time Alabama governor and four-time presidential candidate helped to establish the conservative political movement that put Ronald Reagan in the White House in 1980 and gave Newt Gingrich and the Republicans control of Congress in 1994. In this second edition, Carter updates Wallace's story with a look at the politician's death and the nation's reaction to it and gives a summary of his own sense of the legacy of "the most important loser in twentieth-century American politics."

#1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as "required reading," a bold and personal literary exploration of America's racial history by "the most important essayist in a generation and a writer who changed the national political conversation about race" (*Rolling Stone*) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY *The New York Times Book Review* • *O: The Oprah Magazine* • *The Washington Post* • *People* • *Entertainment Weekly* • *Vogue* • *Los Angeles Times* • *San Francisco Chronicle* • *Chicago Tribune* • *New York* • *Newsday* • *Library Journal* • *Publishers Weekly* In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Fifteen-year-old Rob Garrett wants nothing more than to escape the segregated South and prove himself. But in late 1950s Virginia, opportunity doesn't come easily to an African American. So Rob's parents take the unusual step of enrolling their son in a Connecticut boarding school, where he will have the best education available. He will also be the first student of color in the school's history. No matter—Rob Garrett is on his way. But times are changing. While Rob is experiencing the privilege and isolation of private school, a movement is rising back home. Men and women are organizing, demanding an end to segregation, and in Rob's hometown, his friends are on the verge of taking action. There is even talk about sitting in at a lunch counter that refuses to serve black people. How can Rob hope to make a difference when he's a world away?

Meet the youngest known child to be arrested for a civil rights protest in Birmingham, Alabama, 1963, in this moving picture book that proves you're never too little to make a difference. Nine-year-old Audrey Faye Hendricks intended to go places and do things like anybody else. So when she heard grown-ups talk about wiping out Birmingham's segregation laws, she spoke up. As she listened to the preacher's words, smooth as glass, she sat up tall. And when she heard the plan—picket those white stores! March to protest those unfair laws! Fill the jails!—she stepped right up and said, I'll do it! She was going to j-a-a-ii! Audrey Faye Hendricks was confident and bold and brave as can be, and hers is the remarkable and inspiring story of one child's role in the Civil Rights Movement.

Caleb Franklin and his younger brother, Bobby Gene, spend an extraordinary summer their new, older neighbor, Styx Malone, a foster boy from the city in this lively and diverse story from the Coretta Scott King Honor-winning author of "How It Went Down."

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

In November 1960, all of America watched as a tiny six-year-old black girl, surrounded by federal marshals, walked through a mob of screaming segregationists and into her school. An icon of the civil rights movement, Ruby Bridges chronicles each dramatic step of this pivotal event in history through her own words.

Examines the Montgomery Bus Boycott, highlighting the history, controversy, and personal narratives.

The first book to explore the historical role and residual impact of the Green Book, a travel guide for black motorists Published from 1936 to 1966, the Green Book was hailed as the "black travel guide to America." At that time, it was very dangerous and difficult for African-Americans to travel because black travelers couldn't eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a horrific problem. It took courage to be listed in the Green Book, and Overground Railroad celebrates the stories of those who put their names in the book and stood up against segregation. It shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America.

Witnessing to an enemy African tribe taught Nicholas Muteti the power of unity. He learned that ending segregation in churches enables Christians to become a powerful force for God's kingdom.

Through her heartfelt correspondence with children, Rosa Parks, the Mother of the Modern Day Civil Rights Movement, answers their questions while challenging them to embrace life's possibilities.

A revealing collection that restores Dr. King as being every bit as radical as Malcolm X "The radical King was a democratic socialist who sided with poor and working people in the class struggle taking place in capitalist societies. . . . The response of the radical King to our catastrophic moment can be put in one word: revolution—a revolution in our priorities, a reevaluation of our values, a reinvigoration of our public life, and a fundamental transformation of our way of thinking and living that promotes a transfer of power from oligarchs and plutocrats to everyday people and ordinary citizens. . . . Could it be that we know so little of the radical King because such courage defies our market-driven world?" —Cornel West, from the Introduction Every year, Dr. Martin Luther King, Jr., is celebrated as one of the greatest orators in US history, an ambassador for nonviolence who became perhaps the most recognizable leader of the civil rights movement. But after more than forty years, few people appreciate how truly radical he was. Arranged thematically in four parts, The Radical King includes twenty-three selections, curated and introduced by Dr. Cornel West, that illustrate King's revolutionary vision, underscoring his identification with the poor, his unapologetic opposition to the Vietnam War, and his crusade against global imperialism. As West writes, "Although much of America did not know the radical King—and too few know today—the FBI and US government did. They called him 'the most dangerous man in America.' . . . This book unearths a radical King that we can no longer sanitize."

Presents the life of the Alabama teenager who played an integral role in the Montgomery bus strike, once by refusing to give up a bus seat, and again, by becoming a plaintiff in the landmark civil rights case against the bus company.

"Years before the landmark U.S. Supreme Court ruling *Brown v. Board of Education*, Sylvia Mendez, an eight-year-old girl of Mexican and Puerto Rican heritage, played an instrumental role in *Mendez v. Westminster*, the landmark desegregation case of 1946 in California"--

"A biography of John Lewis, Georgia Congressman and one of the 'Big Six' civil rights leaders of the 1960s, focusing on his youth and culminating in the voter registration drives that sparked

'Bloody Sunday,' as hundreds of people walked across the Edmund Pettus Bridge in Selma, Alabama. Includes a note by Congressman Lewis and a timeline"--Provided by publisher.

This American classic has been corrected from the original manuscripts and indexed, featuring historic photographs and an extensive biographical afterword.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Since 2012, Public Books has championed a new kind of community for intellectual engagement, discussion, and action. An online magazine that unites the best of the university with the openness of the internet, Public Books is where new ideas are debuted, old facts revived, and dangerous illusions dismantled. Here, young scholars present fresh thinking to audiences outside the academy, accomplished authors weigh in on timely issues, and a wide range of readers encounter the most vital academic insights and explore what they mean for the world at large. Think in Public: A Public Books Reader presents a selection of inspiring essays that exemplify the magazine's distinctive approach to public scholarship. Gathered here are Public Books contributions from today's leading thinkers, including Jill Lepore, Imani Perry, Kim Phillips-Fein, Salamishah Tillet, Jeremy Adelman, N. D. B. Connolly, Namwali Serpell, and Ursula K. Le Guin. The result is a guide to the most exciting contemporary ideas about literature, politics, economics, history, race, capitalism, gender, technology, and climate change by writers and researchers pushing public debate about these topics in new directions. Think in Public is a lodestone for a rising generation of public scholars and a testament to the power of knowledge. Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .

The Negro Motorist Green Book 1940 Edition Colchis Books

An incredible memoir from Sharon Robinson about one of the most important years of the civil rights movement.

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's The Color of Law offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), The Color of Law forces us to face the obligation to remedy our unconstitutional past.

Put the work of a Pulitzer prize-winning author in your students' hands every day The American Vision boasts an exceptional author team with specialized expertise in colonial, Civil War, 20th-century, and Civil Rights history. The full panorama of American history comes alive through their vivid and accurate retelling, and the co-authorship of National Geographic ensures that the program's new maps, charts, and graphs are correct to the last detail.

Many brave individuals fought for racial equality during the Civil Rights era. One method of standing up for equality was "sitting in." Black Americans entered businesses that only served white people and calmly refused to leave as a form of peaceful protest. This innovative play follows three black students who courageously hold a sit-in at a lunch counter. This dramatization helps modern readers understand what these protests were like, and to appreciate the bravery of the many student protestors. Historical photographs illuminate this period of history. Stage directions, costume and prop notes, and character descriptions guide readers through the performance.
