

Ilva Comizi Dacciaio

The author is a highly successful consultant to leading institutions and organisations. In this enriching and challenging dialogue with the Italian journalist Oscar Iarussi, he brings his passion for life and unceasing search for true awareness for all to focus on the innovative principle of transformation. This book talks about transformation in a two-voice encounter resulting in a thought-provoking and rewarding read for laymen and academics alike. The tone of the account is philosophical, whilst being light and dense. This nonfiction, coming-of-age graphic novel follows Kurt Cobain from his childhood to the brink of worldwide fame with the release of Nirvana's Nevermind. The art and story centre on Kurt's alienation and how friendship and music can fill suburban emptiness. Growing up, Cobain actually believed that he was an alien and would soon be rescued, or meet others like himself, never feeling alone again. When he met his Nirvana bandmates, it happened! Together, the bandmates of Nirvana changed the musical landscape forever.

In this book, Vyvyan Evans builds a framework for the understanding and analysis of meaning that is at once descriptively adequate and psychologically plausible. In so doing he also addresses current issues in lexical semantics and semantic compositionality, polysemy, figurative language, and the semantics of time and space.

Table of contents

A TIMES LITERARY SUPPLEMENT BEST BOOK OF THE YEAR Drawing on an exceptional combination of skills as literary biographer, novelist, and chronicler of London history, Peter Ackroyd surely re-creates the world that shaped Shakespeare--and brings the playwright himself into

unusually vivid focus. With characteristic narrative panache, Ackroyd immerses us in sixteenth-century Stratford and the rural landscape—the industry, the animals, even the flowers—that would appear in Shakespeare's plays. He takes us through Shakespeare's London neighborhood and the fertile, competitive theater world where he worked as actor and writer. He shows us Shakespeare as a businessman, and as a constant reviser of his writing. In joining these intimate details with profound intuitions about the playwright and his work, Ackroyd has produced an altogether engaging masterpiece.

Born in Italy, the first avant-garde of the twentieth century - before Cubism, Dadaism and Surrealism -, Futurism is a major landmark in the history of art and of modern thought. Rather than a school of painting or literature, it was a revolutionary movement whose aim was to create a new awareness and a new approach to the world in general and to art in particular. It embodied the determination to perpetually regenerate man confronted with the progress of technology (electricity, mechanization, telecommunication ...). The Futurists' challenge was to combine all the aspects of modernism within aesthetic creation, re-considering them both in a single dynamic sweep. Ranging from plastic arts to culinary arts, they gave birth to amazing works that would become references for the following avant-gardes, and today, a legacy claimed by many artists. In this reference summing-up, the author reviews the different aesthetic stages of the movement, from "plastic dynamism" in the 1910s to aeropainting in the 1930s, and examines the relationship, long the object of controversy, between the movement and the Italian Fascist government.

In this volume, emerging and established scholars bring ethical and political concerns for the environment,

nonhuman animals and social justice to the study of nineteenth-century visual culture. They draw their theoretical inspiration from the vitality of emerging critical discourses, such as new materialism, ecofeminism, critical animal studies, food studies, object-oriented ontology and affect theory. This timely volume looks back at the early decades of the Anthropocene to query the agency of visual culture to critique, create and maintain more resilient and biologically diverse local and global ecologies.

This book juxtaposes the experiences of regions that have lived or are living through industrial transition in coal-mining and manufacturing centres throughout Europe, opening the way to a deeper understanding of the intensity of change and of how work helps shape new identities.

Law is a specific form of social regulation distinct from religion, ethics, and even politics, and endowed with a strong and autonomous rationality. Its invention, a crucial aspect of Western history, took place in ancient Rome. Aldo Schiavone, a world-renowned classicist, reconstructs this development with clear-eyed passion, following its course over the centuries, setting out from the earliest origins and moving up to the threshold of Late Antiquity. The invention of Western law occurred against the backdrop of the Roman Empire's gradual consolidation—“an age of unprecedented accumulation of power which transformed an archaic predisposition to ritual into an unrivaled technology for the control of human dealings. Schiavone offers us a closely reasoned interpretation that returns us to the primal origins of

Western legal machinery and the discourse that was constructed around it—formalism, the pretense of neutrality, the relationship with political power. This is a landmark work of scholarship whose influence will be felt by classicists, historians, and legal scholars for decades.

A small town is doomed by jealousy, greed, and a shared love of hunting In the backwoods town of Carthage, there isn't much for the leading citizens to do but drink, sleep, and shoot. John Warren is preparing for an early morning duck hunt when he hears two shotgun blasts— only later does he learn they were the sound of Dan Roberts's death. Although it appears the handsome young man killed himself, Warren and the police are smart enough to realize that suicide victims seldom shoot twice. That night, a drunk woman calls Warren's house, offering a motive for the crime he didn't commit. Roberts was sleeping with Warren's wife—and he wasn't her only lover. Warren didn't kill Roberts, but as the rumors begin to swirl, he may wish that he had. In a town where every man is a crack shot, shooting a rival isn't murder. It's target practice. “[Williams] is just about as good as they come.” —The New York Times “Relying on wit, humor and ingenious plotting, Williams's characters constantly attempt to outwit the system.” —Woody Haut, author of *Pulp Culture* “One of the neglected hardboiled geniuses . . . his novels were perfect little gems.” —Joe R. Lansdale, author of *Savage Season*

Charles Williams (1909–1975) was one of the preeminent authors of American crime fiction. Born in Texas, he dropped out of high school to enlist in the US Merchant Marine, serving for ten years before leaving to work in the electronics

industry. At the end of World War II, Williams began writing fiction while living in San Francisco. The success of his backwoods noir *Hill Girl* (1951) allowed him to quit his job and write fulltime. Williams's clean and somewhat casual narrative style distinguishes his novels—which range from hard-boiled, small-town noir to suspense thrillers set at sea and in the Deep South. Although originally published by pulp fiction houses, his work won great critical acclaim, with *Hell Hath No Fury* (1953) becoming the first paperback original to be reviewed by legendary New York Times critic Anthony Boucher. Many of his novels were adapted for the screen, such as *Dead Calm* (published in 1963) and *Don't Just Stand There!* (published in 1966), for which Williams wrote the screenplay. Williams died in California in 1975.

"The Land of Cockayne" by Matilde Serao. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten?or yet undiscovered gems?of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Back in a new printing is this original vision of a forest filled with cute horny winged little fairies in tight fetish leather outfits. In Kondom's fairy-world, when a fairy turns 100 years old they become keepers and caretakers of the forest and all the little critters who live in the

woods. While searching for a missing Stag Beetle, Pfil comes across an isolated house with three evil fairies who drug, bind and take her prisoner for their own sexual purposes. Where is Pamila and how does Pfil get out of this one?

This book brings to the surface the lines of experimentation and artistic renewal appearing after the exhaustion of Neorealism, mapping complex areas of interest such as the emergence of ethical concerns, the relationship between ideology and representati

This book addresses the ideological figure of modernity, its presumed historical significance as an era, and its theoretical adequacy as a frame. It shows how science is evoked to prevent the sociological imagination from elaborating non-Eurocentric categories and terminologies that are more adequate for a global age. The idea of modernity should not only be contested, but radically unthought in its foundational assumptions. These assumptions inform concepts such as secularization, emancipation, the 'global' and accumulation of capital. This book frees these concepts from ethnocentrism and discloses a path toward a new, non-Eurocentric, global social theory. Gennaro Ascione explores the transformative potential of decolonizing knowledge through a radical reconsideration of the historical and epistemological role that the intellectual reference to science plays in

the construction of concepts. This ground-breaking work challenges social theorists to think globally beyond modernity, bringing together social theory and science in an unprecedented way. Importantly, it makes accessible a new space of missing theorization for further developments and inquiries in the field.

This is the first book in English profiling the work of a research collective that evolved around the notion of "coloniality", understood as the hidden agenda and the darker side of modernity and whose members are based in South America and the United States. The project called for an understanding of modernity not from modernity itself but from its darker side, coloniality, and proposes the de-colonization of knowledge as an epistemological restitution with political and ethical implications. Epistemic decolonization, or de-coloniality, becomes the horizon to imagine and act toward global futures in which the notion of a political enemy is replaced by intercultural communication and towards an-other rationality that puts life first and that places institutions at its service, rather than the other way around. The volume is profoundly inter- and trans-disciplinary, with authors writing from many intellectual, transdisciplinary, and institutional spaces. This book was published as a special issue of Cultural Studies.

Day Bang is a 201-page book that teaches you how

to pick up women during the day, primarily in a coffee shop, clothing store, bookstore, grocery store, subway, or on the street. It contains 51 openers, 23 long dialogue examples with commentary, and dozens of additional lines that teach by example.

Day Bang includes... -The optimal day game mindset that leads to the most amount of success-An easy mental trick to prevent your brain from going into a flight-or-fight response when it's time to approach a woman you're attracted to-A detailed breakdown of how to use the "elderly opener," an easy style of approach that reliably starts conversations with women-2 ways to tell if a girl will be receptive to your approach-How to avoid the dreaded "interview vibe"-10 common mistakes guys make that hurt their chances of getting a number Day Bang shares tons of tips and real examples on having successful conversations. It teaches you... -How to use my bait system to get the girl engaged and interested in you-How to segue out of the initial opening topic into a more personal chat where you'll get to know the girl on a deeper level-How to take the interesting things you've done (your accomplishments, hobbies, and experiences) and morph them into bait hooks that gets the girl intrigued enough to want to go out with you-My "Galnuc" method to seamlessly get a girl's number-An easy hack at the end of your interactions that will reduce the chance of a flake and prime the girl for going out with you-Ways to open up a

conversation on a girl who isn't giving you much to work with Day Bang goes into painstaking detail on how to approach women in a variety of common environments... -How to open a girl in coffee shops when she has a book, laptop, mp3 player, cell phone, research paper, crossword or Sudoku puzzle, or nothing at all-Two methods for approaching a girl on the street, depending on if she's moving or not, with a diagram to explain all the approach variations-How to approach in a retail store or mall environment, with openers to use on customers or sales clerks-How to approach in bookstores, with specific tips on how to customize your approaches in the cafe, magazine section, or general book aisles-How to meet women in public transportation, on both the bus and subway-How to meet women in grocery stores-How to approach girls in secondary venues like a beach, casino, concert, gym, hair salon, handicraft fair, museum, art show, park, public square, or wine festival Dozens of additional topics are logically organized into 12 chapters... -Preparation. How to reduce your approach anxiety-Opening. How to deliver your opener in a way that doesn't scare women away-Rambling. How to have conversations that make women interested in you-Closing. How to get a number in a way that reduces the chance she'll flake-The Coffee Shop. How to pick up in coffee shops and cafes-The Street. How to pick up outdoors-The Clothing Shop. How to pick up in

retail shops, malls, and big box stores-The Bookstore. How to pick up in bookstores-Public Transportation. How to pick up in the bus, subway, or long distance transportation-The Grocery Store. How to pick up in grocery stores-Other Venues. How to pick up just about anywhere else women can be found-Putting It All Together. How to maximize your day game potential The lessons taught in this 75,000 word, no-fluff textbook will help you meet women during the day. If you need tips on what to do after getting her number, consult my other book Bang, which contains an A-to-Z banging strategy. Day Bang focuses exclusively on daytime approaching. This inaugural volume in the Graphic Medicine series establishes the principles of graphic medicine and begins to map the field. The volume combines scholarly essays by members of the editorial team with previously unpublished visual narratives by Ian Williams and MK Czerwicz, and it includes arresting visual work from a wide range of graphic medicine practitioners. The book's first section, featuring essays by Scott Smith and Susan Squier, argues that as a new area of scholarship, research on graphic medicine has the potential to challenge the conventional boundaries of academic disciplines, raise questions about their foundations, and reinvigorate literary scholarship—and the notion of the literary text—for a broader audience. The second section, incorporating essays by Michael Green and

Kimberly Myers, demonstrates that graphic medicine narratives can engage members of the health professions with literary and visual representations and symbolic practices that offer patients, family members, physicians, and other caregivers new ways to experience and work with the complex challenges of the medical experience. The final section, by Ian Williams and MK Czerwiec, focuses on the practice of creating graphic narratives, iconography, drawing as a social practice, and the nature of comics as visual rhetoric. A conclusion (in comics form) testifies to the diverse and growing graphic medicine community. Two valuable bibliographies guide readers to comics and scholarly works relevant to the field.

Bestselling author Bethany McLean reveals the true story of fracking's impact -- on Wall Street, the economy and geopolitics. The technology of fracking in shale rock -- particularly in the Permian Basin in Texas -- has transformed America into the world's top producer of both oil and natural gas. The U.S. is expected to be "energy independent" and a "net exporter" in less than a decade, a move that will upend global politics, destabilize Saudi Arabia, crush Russia's chokehold over Europe, and finally bolster American power again. Or Will it? Investigative journalist and bestselling author Bethany McLean digs deep into the cycles of boom and bust that has plagued the American oil industry for the past

decade, from the financial wizardry and mysterious death of fracking pioneer Aubrey McClendon, to the speculators who are betting on America's ascendance and the collapse of OPEC in the great game of geopolitics. McLean finds that fracking is a business built on attracting ever-more gigantic amounts of capital investment, while promises of huge returns have often not borne out.

Overeagerness in partaking in a boom can lead to all types of problems and just as she did with the Enron story, in Saudi America McLean points out the reality and the risks of the inflated promises of the fracking boom.

To many readers of *The Prince*, Machiavelli appears to be deeply un-Christian or even anti-Christian, a cynic who thinks rulers should use religion only to keep their subjects in check. But in *Machiavelli's God*, Maurizio Viroli, one of the world's leading authorities on Machiavelli, argues that Machiavelli, far from opposing Christianity, thought it was crucial to republican social and political renewal--but that first it needed to be renewed itself. And without understanding this, Viroli contends, it is impossible to comprehend Machiavelli's thought. Viroli places Machiavelli in the context of Florence's republican Christianity, which was founded on

the idea that the true Christian is a citizen who serves the common good. In this tradition, God participates in human affairs, supports and rewards those who govern justly, and desires men to make the earthly city similar to the divine one. Building on this tradition, Machiavelli advocated a religion of virtue, and he believed that, without this faith, free republics could not be established, defend themselves against corruption, or survive. Viroli makes a powerful case that Machiavelli, far from being a pagan or atheist, was a prophet of a true religion of liberty, a way of moral and political living that would rediscover and pursue charity and justice. The translation of this work has been funded by SEPS - Segretariato Europeo per le Pubblicazioni Scientifiche. "Dazzling and disturbing, Marinetti's 'great fire-brand novel' recounts the erotic and exotic exploits of the warlord Mafarka in a torrid and highly stylised North Africa. When the novel was first published (the French version in 1909, the Italian in 1910), it was banned for obscenity."--cover.

E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso..." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale,

che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l'aiuto cercato non lo concederanno mai. "Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente". Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l'immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

This collection examines new comic-book cultures, graphic writing, and bande dessinée texts as they relate to postcolonialism in contemporary Anglophone and Francophone settings. The individual chapters are framed within a larger enquiry that considers definitive aspects of the postcolonial condition in twenty-first-

century (con)texts. The authors demonstrate that the fields of comic-book production and circulation in various regional histories introduce new postcolonial vocabularies, reconstitute conventional "image-functions" in established social texts and political systems, and present competing narratives of resistance and rights. In this sense, postcolonial comic cultures are of particular significance in the context of a newly global and politically recomposed landscape. This volume introduces a timely intervention within current comic-book-area studies that remain firmly situated within the "U.S.-European and Japanese manga paradigms" and their reading publics. It will be of great interest to a wide variety of disciplines including postcolonial studies, comics-area studies, cultural studies, and gender studies.

The years 1937-1938 remained in Italy and were stolen by the Gestapo, then retrieved and published separately until they were restored to their original form and published in the Italian edition."--BOOK JACKET.

Writing Material Culture History examines the methodologies currently used in the historical study of material culture. Touching on archaeology, anthropology, art history and literary studies, the book provides history students with a fundamental understanding of the relationship between artefacts and historical narratives. The role of museums, the impact of the digital age and the representations of objects in public history are just some of the issues addressed in a book that brings together distinguished scholars from around the world. This new edition includes: * A new wide-ranging

introduction highlighting the role of material culture in the modern period and presenting recent contributions to the field. * A more balanced and easy-to-use structure, including 9 methodological chapters and 20 'object in focus' chapters consisting of case studies for classroom discussion. * 5 fresh 'object in focus' chapters showing greater engagement with 20th-century material culture, non-European artefacts (particularly in relation to issues of power, indiginity and repatriation of objects), architecture (with pieces on industrial heritage in Europe and on heritage destruction in China) and the definitions and limits of material culture as a discipline. * Expanded online resources to help students navigate the museums/institutions holding key artefacts. *

Historiographical updates and revisions throughout the text. Focusing on the global dimension of material culture and bridging the gap between the early modern and modern periods, *Writing Material Culture History* is an essential tool for helping students understand the potential of objects to re-cast established historical narratives in new and exciting ways.

This is an authoritative and comprehensive history of the Fifty Years' war and the relationship that dominated world politics in the second half of the twentieth century. For fifty years relations between the United States and the Soviet Union were deciding factors in international affairs. Available for the first time in paperback, Richard Crockatt's acclaimed book is an examination of this relationship in its global context. It breaks new ground in seeking a synthesis of historical narrative and analysis of the global structures within which superpower relations

developed. Attention is given to economic as well as political and military factors.

Most Americans say they believe in God, and more than a third say they attend religious services every week. Yet studies show that people do not really go to church as often as they claim, and it is not always clear what they mean when they tell pollsters they believe in God or pray. *American Religion* presents the best and most up-to-date information about religious trends in the United States, in a succinct and accessible manner. This sourcebook provides essential information about key developments in American religion since 1972, and is the first major resource of its kind to appear in more than two decades. Mark Chaves looks at trends in diversity, belief, involvement, congregational life, leadership, liberal Protestant decline, and polarization. He draws on two important surveys: the General Social Survey, an ongoing survey of Americans' changing attitudes and behaviors, begun in 1972; and the National Congregations Study, a survey of American religious congregations across the religious spectrum. Chaves finds that American religious life has seen much continuity in recent decades, but also much change. He challenges the popular notion that religion is witnessing a resurgence in the United States--in fact, traditional belief and practice is either stable or declining. Chaves examines why the decline in liberal Protestant denominations has been accompanied by the spread of liberal Protestant attitudes about religious and social tolerance, how confidence in religious institutions has declined more than confidence in secular institutions,

and a host of other crucial trends. Now with updated data and a new preface by the author, this revised edition provides essential information about key developments in American religion since 1972, plainly showing that religiosity is declining in America.

El psicoanálisis es un recurso imprescindible para profundizar en el estudio de los mecanismos de defensa individuales y comunitarios que impiden la toma de conciencia plena y madura acerca de la grave crisis ambiental. Ante la evidencia objetiva de los daños ocasionados pero también de los que potencialmente podemos causar, aun a sabiendas de su magnitud y peligrosidad, nos resulta difícil tomar consciencia emocionalmente, más que cognitivamente, de lo que sucedió, de lo que está sucediendo y lo que aún puede suceder. Resulta imposible hablar de un imaginario individual sin considerar el imaginario colectivo, que lo subyace y lo impregna, en una relación de codeterminación recíproca. Y no podemos confiar en la imagen de un entorno que sea solo un afuera desconectado de la representación que de él tenemos internamente. El libro, que Lorena Preta define como necesario, se propone iluminar las confusas investiduras afectivas y las angustias que sostienen defensas patológicas como la proyección, la represión, la intelectualización, la escisión, el desplazamiento y la negación, en un entretejido de reflexiones acerca de las historias y las narraciones individuales que cobran vida en el consultorio y el imaginario colectivo.

Women and the Great War focuses on women's experiences during the period of violent conflict - the

Great War. It examines the role of women as peace activists as well as their role in the military and support services. Source materials, including historical documents, photographs and cartoons, together with student activities, are used to focus the reader on the way violent conflict altered women's traditional roles.
