Do you have something important to say? Are your knowledge and experience unique, valuable, and in demand? Do you want to write a book that changes the way people think and live? By combining his experience as an educator and entrepreneur, author Gregory V. Diehl teaches passionate thinkers how to turn unique messages into profitable books--without sacrificing royalties or creative control to a publisher. With in-depth advice about all stages of book creation, publication, and marketing, The Influential Author takes a uniquely grounded and intellectual approach to nonfiction self-publishing. Unlike self-publishing guides that promise to teach you how to write a bestselling book quickly and easily, Diehl's book actually walks you through the complex details of planning, writing, editing, and promoting your work at the standards of traditional publishing. Whether you are an experienced writer or have just started thinking about how to write a nonfiction book, The Influential Author will teach you about:

- Combining your passions and experience with reader demand to decide what book to write.
- Organizing your knowledge into sections and chapters for maximum comprehension and flow.
- Refining your book with

Almost everything you've read about formatting pictures for Kindle is wrong. The advice offered by Kindle experts and even Amazon itself can give images that are tiny, blocky, noisy, or wildly inconsistent on different Kindles. Aaron Shepard, author of acclaimed books on Kindle and POD publishing, brings his years of experience in book design, webmastering, and photography to bear on a single question: How do you make pictures look great on the Kindle? He answers that question, while also providing beginners a basic course in picture editing. Along the way, he discusses how to keep Microsoft Word from sneakily degrading your pictures; how to adjust HTML code to show images at their best; how to make part of a picture transparent for Night and Sepia modes; how to boost the power of your cover image as a marketing tool; and how to create anything from children's books to photography books to poetry books within minutes with the Kindle Comic Creator. Best of all, you don't have to take his word for any of it. The proof is right in the book, with samples of many kinds of pictures you might use -- photos, paintings, drawings, diagrams, tables, screenshots, cover images, and more. Nowhere else will you find such in-depth info on working with Kindle graphics. Whatever you use to create Kindle books -- Word, InDesign, a dedicated ebook app, or straight HTML -- you'll find Pictures on Kindle a perfect companion to other formatting guides.

Roulette game has been around for centuries and yet gamblers have gone broke just over 2.7% house edge. Now you may laugh at me and comment that I am losing 2.7% at every spin cumulatively. Of course you are right in saying that and you may tell me that it is highly negative expected value

in the long run. But can you ignore these facts Roulette will produce winning and losing streaks Roulette will allow gamblers to win big by giving them 36 times of whatever they put straight up If a person goes hot and gets 2 times a number correct he stands to win 36×36 times the amount bet consecutively. Giving you returns of 1296 times or if you just bet 25 dollars which anyone can afford to lose in a casino he will have won 32 thousand 400 dollars or \$32,400. Now with such low house edges anyone can go on a hot streak, but everyone loses. And now if I tell you I have a system that will allow you to take shots at the game of Roulette and if you win you compound your profits and cut losses and take profits then certainly the casinos will a lot fun, a lot entertainment and a hell lot more fun, then would you deny it? In this manual and in the coming pages I am going to convey to you the secrets of my winning system of Roulette, every Roulette player must read this book at least one and what have you got to lose? You are just going to get saved a lot of money and this is an indispensable guide to winning in casinos a cart full of money, all crisp 100 dollar bundles. And who knows you may even break the bank at roulette table. A lot of players go to the casinos and assume they are lucky and going to win and this is the wrong mentality to win at poker, because if you believe you are going to win you are going to compound your losses following bad strategies like Martingale. The Martingale strategy works best for the casino and they prevent losses by limiting the maximum amount of bets that could be placed and of course players like you and me don't have access to infinite resources that will allow us to keep doubling our bets forever. We need to win big and we need to win with a small amount of money. In this manual I am going to give you solid advice that will allow players to reduce the house edge of casinos and who knows if everyone read my book probably the casinos will stop the game of

Roulette altogether. Because I have a system that really does beat the casinos. And the rules which I will tell you precisely in later part of the book are as follows 1.Take Profits 2.Try to go on a hot streak 3.Cut losses 4.Go for big wins like betting straight up 5.An intuitive pattern recognition system that makes phrases out of meaningless numbers for identification of wheel bias. (This works on every Roulette Wheel in Vegas, Atlantic City, every casino in the world and all machines open and closed and even automatic Roulette machines which have a ball inside a chamber) This is a short book that will give you the right tools to approach the game of Roulette and every chapter will convey the topics that I have told you above and you must use all of these tools at once so that you will make big money or be break-even or have very little losses in the game of Roulette. Good Luck and wish you a lot of fun and entertainment in the casinos."

Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to

capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at

times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Just as Jesus shows us the character of God, diving deeper into the events surrounding his birth gives us a better understanding of that character. Christmas is so much more than the holiday we've turned it into. It's the birth of a promise-God's promise to redeem humankind to himself. Sending Jesus was always God's plan, and there is something for us to learn in every detail surrounding his birth. Christmas Speaks is a simple yet perceptive devotional that's broken down into easily understood segments that weave together scripture and insight, giving the reader a deeper understanding of the vast love God has for us and how we should respond to that love. Each chapter examines a different aspect of the Christmas narrative. As we come to better know the

people central to this story, we can begin to apply aspects of their character to our own lives for a more meaningful relationship with God. By coming to a deeper understanding of scripture, we can see how God speaks to the world-if we have ears to listen. Reflect on the words within these pages, and receive what the Holy Spirit has for you.

He uses three book building projects that have been published to show how his methods work. The first book building project covers a work of fiction. The second deals with the requirements of a nonfiction book. The third shows the particular details of building an anthology of poetry. If you ever thought about writing, but hesitated after realizing how hard it can be to have a book published through the old publishing establishment, here is a method to achieve your aspirations. Amazon's revolutionary Kindle eReader along with its Digital Text Platform for publishing has democratized the industry. Now, YOU can create and market your eBook. Carpe diem!

I suspect that if you are reading this book, then you either just finished your book or you are contemplating self-publishing books as a full-time or part-time income or just to publish your book and brag to your friends about it later. In any case, this book is written for you and it comes from my heart, and from my many trial and errors over the last two years and still am doing today. I hope I will not let you down with the content of this book and that you will find it useful.

A planet plagued with tumult from outsiders and divided by its own religious dichotomy could face extinction if their faiths are not united and an unholy artifact is destroyed. Safiro, the God of Death, and Sanguina, the Goddess of Life, created two heroes

(Vytametas) -- mirror twins separated at birth yet destined to meet in a place where the future of their world will be decided by their powers. The only people who know not the ultimate purpose of the legendary Vytametas are the young heroes themselves. While the teenage Vytametas learn of their world and of their mission, they will be turned against each other by the two faiths they are meant to save: the demented Safiric Brotherhood and the shady Sanguinic Sisterhood.

BRIEF DESCRIPTION: This is Volume 2, which includes marketability tips, marketing strategies, cover design, editing your proof, perfecting your paperback and eBook, creating an online author platform, and useful tips about Amazon and other booksellers. The book is both highly informative (like how to use Roman numerals for initial pages and Arabic numbers for others and how to use basic HTML to perfect the eBook), yet also focused on useful marketing, cover design, editing, formatting, and publishing skills. **AUTHOR:** Chris McMullen has written and self-published over a dozen paperback books and eBooks. This book also was self-published using the same techniques that are described here. **NOTES:** In contrast to the first volume, Volume 2 on marketing and marketability has very little to do with Microsoft Word.

DESCRIPTION: Find highly detailed instructions for how to edit, perfect, and market your books. Some of the specific topics include: Several common mistakes in cover design and subtle pointers for perfecting the cover. Numerous tips for how to proofread your paperback and eBook for editing and formatting issues. Premarketing strategies that you should be applying before you publish to give your book a headstart. Are you tired of "how to publish books" that are full of fluff and no real information? I was, too. Before I began my publishing career with Kindle books, I read just about everything out there, looking for real answers to questions I had about the industry. But much to my disappointment, most of the books were filled with fluff or stories of people who "hit it big"

without really telling me how or why. I determined to jump in and learn for myself-and that's exactly what I did. I started with my first book, How to Work from Home and Make Money, and then quickly published three more. I was looking for the topic of my fifth book when it hit me-why not share what I've learned with the people who still haven't made the leap and published their own book? It all began when I received an email from a book promotion site. One of the features was a how to book about publishing Kindle books, so out of curiosity, I followed the link and read the reviews. And sure enough, the page was full of people complaining that the book didn't contain any valuable information. So here's what I decided to do. Write a book that answers all of the real questions without painting an unrealistic view of the possibilities. In my book, I answer things like: How to pick book topics that will sell. (Why it's important, and what I've done right-and wrong.) How to write a book in 30 days or less. (And take weekends off) How to conduct research for your book. How to make your own covers for free. The pros and cons of pre-releasing your book. When you should enroll your book in Kindle Unlimited (And when you shouldn't.) How to format your book yourself. (Including the clickable table of contents) And how to get it done for cheap if you don't want to do it. Why you need a paperback version. (And how to create one) Why you may need an audio book

(And how to get one for free)How to get your book translated into other languages for free (And why you should)Why ranking matters (And what to do if your book isn't ranking well.)How to market your book. (Including links and contact information for the people I use)What to do after you publish your first book.How much you can REALLY expect to make with Kindle publishingI talk about the mistakes I've made so you don't make them, too. And I provide you with step-by-step instructions and relevant links for all of the above areas-and more. In other words, this book is the ONLY book you'll need to start a career publishing Kindle books.If you've been dreaming of publishing a book, but don't know where to start-or if you've already published but can't find success-this may be the book you've been waiting for.Why not take the first step toward your publishing career and download it right now? I promise you won't find any fluff or useless information in it. Just an actionable guide that answers the questions no one else will.

Do you feel like you struggle to make time for everything? We are living in a time-poor society, working more than ever and with less time for ourselves and family. The pressures and stress of the obligations we feel we have, often leave us without time to do everything that we would like to. More critically, we lack the time to reflect, review our lives and consider our direction. Time to contemplate if the decisions we are making are going to lead us to a life of purpose or an old age filled with regret. Time for Anything is based on 5 years of research by Craig D Robinson. Using the techniques in this book, Craig went from working in an entry level position to, in just four years: start 2 companies, recharge with 12 weeks holiday a year, start a family, grow and sell his startups and retire at the age of 34. This book shows you how you too can have time for it all.

Amsden Ironwrought is a master blacksmith living in a remote village in Ancient Egypt. Ethan Samuels is

an ordinary, fourteen year-old boy living in modern-day Chicago. Though two thousand years separate their intertwined timelines, the two of them have more in common than they would expect. Ethan has spent the last fourteen years of his life moving from city to city with his mother, but after finally laying roots in Chicago, his life seems to have settled down. In a snowy alleyway, an unexpected mugging plunges Ethan into the magical world of the Bloodline and whisks him away to Aschwood Academy, a school for the magically gifted. There, he befriends a quirky mix of loyal friends and finds himself in the midst of a plot by the Blood Host to steal one of the most powerful relics in the world. Amsden's tale centers upon the creation of those very relics nearly two thousand years ago. A group of ambitious foreigners have discovered an unknown material near his homeland that grants them near god-like powers, and the men conquer and mercilessly rule the land fueled by the talismans they had Amsden create. Enraged by the stories of brutality and chaos, he decides to use the powers he has secretly acquired and bring the fight to them. Aschwood Academy: The Bloodline is the debut children's, fantasy novel by M. B. Cohen and is the first book in the Aschwood Academy series. Would You Like to Publish Unique Books Fast...
