This book assists the busy professional with ready-to-use materials to present entertaining, educational, and age-appropriate programs that introduce young learners to countries and cultures around the world.

Entertaining Unplugged Children was written to assist parents and children in their quest to find entertaining things to do when children are unplugged from the various technologies. Outdoor play with a lot of kids and indoor things with a few children are covered. Being unplugged does not necessarily mean doing physical activities, so quiet activities are also explored from kids songs to nursery rhymes and prayers. There are even a few arts and craft activities, but that would be another book in itself! Have fun learning, sharing, or revisiting things that you might have done growing up.
