The book that you are considering buying is nothing short of a VIP Pass to Enlightenment, written by the UFC's most infamous and feared destroyer of men—Chael P. Sonnen. Backwoodsmen and unlearned folk call him the Walking Thesaurus. His contemporaries have bestowed upon him the title Sir Sonnen. And those dwelling in the forgotten, forlorn jungles south of the equator reverently refer to him as filho da puta, a term Sonnen personally deciphered using his

mastery of linguistics. It means, simply, "the Great and Humble Bearer of Knowledge." In the coming pages, Sonnen's commentary and tales of heroic adventure will initiate you into the world of superhuman greatness. Allow him to carry you like a frail damsel through the world of professional mixed martial arts as he cuts weight, deals with moronic cornermen, expresses his disdain for focus mitts and punching in general, gets his face rearranged, and finds support and encouragement from fans. Permit him to cleanse your mind's palate and teach you the truth about history, politics, endangered species, cinema, terrorists, music, particle accelerators, and his plans for creating a Chaelocracy, which translates as "a Better Earth." Shower him with praise as he takes you into his manly mitts like a lump of clay and reshapes you in his own likeness. Like all men of myth and legend, Sonnen strives for the betterment of the human race. Prometheus brought us fire; Dana White brought us the modern-day gladiator; and Chael P. Sonnen now brings us the step-by-step guide to being a great human being and patriot. Purchase this book; learn how the world really works from the perspective of a man who has been face-to-face with presidents, wardens, dignitaries, judges, kings and queens, and athletic commissions; and find out if you have what it takes to awaken from your progressive nightmare. There is no better day to stop being you and start trying to be Chael P. Sonnen.

The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more

irresistible and brings felting to an entirely new level. The author demonstrates several basic felting techniques including: basic wet felting, needle felting, nuno, and punch needle felting. For the more advanced fiber artist and sewer, she provides patterns and instructions for original clothing designs including vests, jackets, and skirts. Felt Fashion is a standout from other felting books for its scope, originality, and its distinct ties to couture.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

The Real Cost of Insecure Software • In 1996, software defects in a Boeing 757 caused a crash that killed 70 people... • In 2003, a software vulnerability helped cause the largest U.S. power outage in decades... • In 2004, known software weaknesses let a hacker invade T-Mobile, capturing everything from passwords to Paris Hilton's photos... • In 2005, 23,900 Toyota Priuses were recalled for software errors that could cause the cars to shut down at highway speeds... • In 2006 dubbed "The Year of Cybercrime," 7,000 software vulnerabilities were discovered that hackers could use to access private information... • In 2007, operatives in two nations brazenly exploited software vulnerabilities to cripple the infrastructure and steal trade secrets from other sovereign nations... Software has become crucial to the very survival of civilization. But badly written, insecure software is hurting people—and costing businesses and individuals billions of dollars every year. This must change. In *Geekonomics*, David Rice shows how we can change it. Rice reveals why the software industry is rewarded for carelessness, and how we can revamp the industry's incentives to get the reliability and security we desperately need and deserve. You'll discover why the software industry still has shockingly little accountability—and what we must do to fix that. Brilliantly written, utterly compelling, and thoroughly realistic, *Geekonomics* is a long-overdue call to arms. Whether you're software user, decision maker, employee, or business owner this book will change your life...or even save it.
