With a new preface: A “stunning” analysis of the troubled Republican president by the Pulitzer Prize–winning author of *Lincoln at Gettysburg* (The New York Times Book Review). In this acclaimed biography that earned him a spot on Nixon’s infamous “enemies list,” Garry Wills takes a thoughtful, in-depth, and often “very amusing” look at the thirty-seventh US president, and draws some surprising conclusions about a man whose name has become synonymous with scandal and the abuse of power (Kirkus Reviews). Arguing that Nixon was a reflection of the country that elected him, Wills examines not only the psychology of the man himself and his relationships with others—from his wife, Pat, to his vice-president, Spiro Agnew—but also the state of the nation at the time, mired in the Vietnam War and experiencing a cultural rift that pitted the young against the old. Putting his findings into moral, economic, intellectual, and political contexts, he ultimately “paints a broad and provocative landscape of the nation’s—and Nixon’s—travails” (The New York Times). Simultaneously compassionate and critical, and raising interesting perspectives on the shifting definitions of terms like “conservative” and “liberal” over recent decades, *Nixon Agonistes* is a brilliant and indispensable book from one of America’s most acclaimed historians.

Writing an amazing college admission essay is easier than you think! So you’re a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they’re not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn’t sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

A guide to the nation’s colleges publishes extensive surveys—all written by current or past students—from over three hundred educational institutions, covering admission, academics, quality of life, social life, and employment prospects.

The outspoken former mayor of New York City describes his life-long battle against anti-Semitism and its influence on campus, in the media, on the streets of New York, and in Washington, in a collection of interviews, letters, and speeches that span his political career. 30,000 first printing.

Killian knows all about vampires and aliens. They’re not real. But when a handsome swimmer climbs into her storm-tossed boat an hour from her summer destination, the worlds of fantasy and reality suddenly collide... Cuttlelea Island has no mall, no social scene, and no action. But it does have a mysterious stone tower, ageless islanders, and a secret as astonishing as a mermaid’s tale... Before the summer is through, Killian will find the truth of her family’s past...and the role she is destined to play in a centuries-old curse.

What if writing an unforgettably compelling college essay came down to answering just two questions? 1. Have you been through significant challenges in your life? 2. Do you know what you want to be when you grow up? Good news. These two questions lead you to one of four easy-to-follow essay paths in *College Essay Essentials*, a new approach to the college essay that is groundbreaking in its simplicity. Expert author Ethan Sawyer saves you time and stress by sticking to the basics and guiding you every step of the way, from brainstorming to finished draft to acceptance letter.

Judith’s marriage to Adam is failing fast. Despite her best efforts, his attention is entirely taken up by his law practice while her existence—if he remembers it—is merely something to criticize. Thankfully, Judith has an antique shop and her best friend and business partner, Susan, to keep her focused on the good things in life. Tired of being overlooked and undervalued, Judith decides to leave her husband and reconnect with herself as a single woman rather than as Adam’s wife. Soon, Judith’s world expands to include a support group of women also facing divorce. Slowly learning to extend to herself the same compassion she offers her friends, Judith begins to rediscover her own value as a person and as a woman. And her efforts don’t go unnoticed. While Judith rebuilds her life, with the encouragement of her growing circle of friends, a secret admirer starts leaving thoughtful gifts on her doorstep—which she begins to hope will lead to a face-to-face meeting. A celebration of friendship and love, where every character counts, “The Things That Fall Away” is an insightful story that brings to light the beauty of everyday things and the wonder of being truly cherished.

A marvel of accessibility and erudition, the guide also features a history of the making of the Constitution with excerpts from *The Federalist Papers* and a look at crucial Supreme Court cases that reminds us that the meaning of many of the specific provisions of the Constitution has changed over time. “Excellent . . . valuable and judicious.” -Jill Lepore, *The New Yorker*

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology." DARK END OF SPECTRUM will make you think twice before turning on your cell phone or PDA! DARK END OF THE SPECTRUM is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture. DARK END OF THE SPECTRUM is a thriller that will connect with everyone with a cell phone, PDA or wireless device. When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum - bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses, ICER destroys most of the downed aircraft in airports all over the country. When ICER sends a pulse that will kill millions on the East Coast, only security expert Dan Riker can stop them, but ICER has kidnapped Dan's family. Will Dan save his family or will millions die?

In high school, everyone's talking about college. What to do. Where to go. Why it's important. Classes are given on it. Books are written about it. But details get left out. Every year, college graduates learn this the hard way as they step into adulthood. I was one of them. After earning a four-year degree, I went through two of the worst years of my life. Not that my situation is unique. I am a part of a generation that was told to go to college first and sort out the details later. Most of us did. We chased the promise of a big shiny future, and we ended up being chased by the mistakes of our past. That's not to say we completely regretted going. This book isn't a list of privileged millennial complaints. It's a collection of wisdom gained in less than pleasant ways. It's a story of hardship, failure, victory, and perseverance. It's all of the things we wish someone had told us. And it takes place before college, in college, after college, and without college. This is the wild, painful, awkward, hilarious, depressing, & beautiful journey from youth to maturity. This is the college book that no one ever gave us.

Have you always wanted to write a book but, just never get around to it? Do you lack confidence in yourself as a writer? Need inspiration? How to Write a Book in a Week ( A Writer's Guide to Meeting a Deadline ) is the answer to all of these questions and more.

However, students may take this and the first volume Illuminating Literature: When Worlds Collide in any order. Prepare your teens for college or for a lifetime of reading. Is it a book-of-the-month club? Is it a literature course? You decide. George Eliot wrote that "man cannot do without the make-believe of a beginning." Beginnings, it turns out, can be quite unusual, complex, and deceptive. The first major volume to focus on this critical but neglected topic, this collection brings together theoretical studies and critical analyses of beginnings in a wide range of narrative works spanning several centuries and genres. The international and interdisciplinary scope of these essays, representing every major theoretical perspective--including feminist, cognitive, postcolonial, postmodern, rhetorical, ethnic, narratological, and hypert. This is a memoir presented in an anthological - like format; in other words, a collection of short stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.

ÉIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.
