An airplane taking off and disappearing into the clouds is a remarkable sight. It's like a bird's flight taken to a new level. In fact, only the Ruppell's griffon vulture can fly as high, at heights above 30,000 feet! This title will get beginning readers off the ground and soaring.

Piper Maclane wants a pet so badly, but she's allergic to everything. So she creates her own "out of slime!" From Epic! Originals, My Pet Slime is a sweet, slimy series about a girl who makes the most of a challenging situation and is rewarded with a bit of magic! Piper wishes she could have a pet to care for and snuggle with and take to school for Show and Tell. All of the other kids have one. But she's allergic to every animal imaginable! So instead, she makes her own pet out of slime, with big eyes, a little mouth, and two arms just long enough for hugs. It would be the perfect pet for Piper, if it were real. When a strange turn of events brings her slime to life, Piper learns how fun, challenging, and messy it can be to care for a pet—especially one made out of slime! At the back of the book, learn about real-life slime and follow the recipe to create a "pet" of your own!

The inspiring true story of mathematician Katherine Johnson--made famous by the award-winning film Hidden Figures--who counted and computed her way to NASA and helped put a man on the moon! Katherine knew it was wrong that African Americans didn't have the same rights as others--as wrong as $5+5=12$. She knew it was wrong that people thought women could only be teachers or nurses--as wrong as $10-5=3$. And she proved everyone wrong by zooming ahead of her classmates, starting college at fifteen, and eventually joining NASA, where her calculations helped pioneer America's first manned flight into space, its first manned orbit of Earth, and the world's first trip to the moon! Award-winning author Suzanne Slade and debut artist Veronica Miller Jamison tell the story of a NASA "computer"
