This timely book explains how recognition and misrecognition have the power to fuel conflict and to initiate reconciliation. Constance Duncombe presents a detailed conceptual and empirical investigation of one of the most significant flashpoints in global politics: the fraught bilateral relations between the US and Iran. Duncombe uses this relationship to explore the importance of representation in shaping the identity of a state, as well as how it is recognised by others on the world stage. In 2015, Iran and the US reached an agreement on the framework for a long-term deal that allows Iran limited nuclear technological capacity in exchange for the lifting of debilitating economic sanctions. In light of decades of animosity between Iran and the US, which previously thwarted attempts on both sides to reach an amicable agreement, this book asks how we can best explain the initial success of this deal given the Trump administration's 2018 US withdrawal from the agreement.

This book provides an empirically grounded, in-depth investigation of the ethical dimensions to in-house practice and how legal risk is defined and managed by in-house lawyers and others. The growing significance and status of the role of General Counsel has been accompanied by growth in legal risk as a phenomenon of importance. In-house lawyers are regularly exhorted to be more commercial, proactive and strategic, to be business leaders and not (mere) lawyers, but they are increasingly exposed for their roles in organisational scandals. This book poses the question: how far does going beyond being a lawyer conflict with or entail being more ethical? It explores the role of in-housers by calling on three key pieces of empirical research: two tranches of interviews with senior in-house lawyers and senior compliance staff; and an unparalleled large survey of in-house lawyers. On the basis of this evidence, the authors explore how ideas about in-house roles shape professional logics; how far professional notions such as independence play a role in those logics; and the ways in which ethical infrastructure are managed or are absent from in-house practice. It concludes with a discussion of whether and how in-house lawyers and their regulators need to take professionalism and professional ethicality more seriously.

“Southeast Asian Affairs, first published in 1974, continues today to be required reading for not only scholars but the general public interested in in-depth analysis of critical cultural, economic and political issues in Southeast Asia. In this annual review of the region, renowned academics provide comprehensive and stimulating commentary that furthers understanding of not only the region’s dynamism but also of its tensions and conflicts. It is a must read.” – Suchit Bunbongkarn, Emeritus Professor, Chulalongkorn University “Now in its forty-sixth edition, Southeast Asian Affairs offers an indispensable guide to this fascinating region. Lively, analytical, authoritative, and accessible, there is nothing comparable in quality or range to this series. It is a must read for academics, government officials, the business community, the media, and anybody with an interest in contemporary Southeast Asia. Drawing on its unparalleled network of researchers and commentators, ISEAS is to be congratulated for producing this major contribution to our understanding of this diverse and fast-changing region, to a consistently high standard and in a timely manner.” – Hal Hill, H.W. Arndt Professor of Southeast Asian Economies, Australian National University

MORE THAN ONE MILLION COPIES SOLD New York Times bestselling author Ann Voskamp invites you to embrace everyday blessings and embark on the transformative spiritual discipline of chronicling God's gifts. Just like you, Ann Voskamp hungers to live her one life well. Forget the bucket lists that have us escaping our everyday lives for exotic experiences. "How," Ann wondered, "do we find joy in the midst of deadlines, debt, drama, and daily duties? What does the Christ-life really look like when your days are gritty, long - and sometimes even dark? How is God even here?" In *One Thousand Gifts*, Ann invites you to discover a way of seeing that opens your eyes to ordinary amazing grace, a way of living that is fully alive, and a way of becoming present to God that brings you deep and lasting joy. It's only in the expression of gratitude for the life we already have, we discover the life we've always wanted . . . a life we can take, give thanks for, and break for others. We come to feel and know the impossible right down in our bones: we are wildly loved - by God. Let Ann's beautiful, heart-aching stories of the everyday give you a way of seeing that opens your eyes to ordinary amazing grace, a way of being present to God that makes you deeply happy, and a way of living that is finally fully alive. Come live the best dare of all! For extended study into the *One Thousand Gifts* message, Ann has also created the *One Thousand Gifts* video study and study guide, a *One Thousand Gifts* devotional, and a special gift edition. This title is also available in Spanish, *Millar de Obsequios*.

Scroungers, spongers, parasites ... These are just some of the terms that are typically used, with increasing frequency, to describe the most vulnerable in our society, whether they be the sick, the disabled, or the unemployed. Long a popular scapegoat for all manner of social ills, under austerity we've seen hostility towards benefit claimants reach new levels of hysteria, with the 'undeserving poor' blamed for everything from crime to even rising levels of child abuse. While the tabloid press has played its role in fuelling this hysteria, the proliferation of social media has added a disturbing new dimension to this process, spreading and reinforcing scare stories, while normalising the perception of poverty as a form of 'deviancy' that runs contrary to the neoliberal agenda. Provocative and illuminating, *Scroungers* explores and analyses the ways in which the poor are portrayed both in print and online, placing these attitudes in a wider breakdown of social trust and community cohesion.

Originally published in the classic British comic, *Eagle* (1950-1969), these two complete adventures from 1950-1952, 'Voyage to Venus' and 'The Red Moon Mystery' have been digitally remastered from the original comics and lovingly restored. This collection also includes a new introduction written by Frank Hampson's son Peter, and includes a never-before published drawing of Dan Dare by Frank Hampson. Working as a science consultant and scriptwriter on Dan Dare from 1950-1951, science fiction legend Arthur C. Clarke supplied several scripts, concepts and notes for 'Voyage to Venus'.

One of science fiction's most famous characters, Dan Dare – pilot of the future, is back for a brand new adventure and facing his biggest threat. Peace reigns supreme for the Earth Sol Alliance. The Mekon, perhaps mankind's greatest enemy, has finally been vanquished and is undergoing behavioural rehabilitation in a maximum-security prison built on the Moon. This leaves his captor, Dan Dare, desk-bound, bored, and praying for adventure... Dan's prayers are seemingly answered when a massive spaceship of unknown origins arrives in the Sol

system and destroys one of the moons of Saturn in a colossal show of strength. Dan Dare is dispatched to investigate and he may need the help of his iconic foe, The Mekon... "An interesting and thought-provoking affair. 8 out of 10." – Adventures in Poor Taste "A relaunch that more than does the character, and its history, justice – and great fun to boot. Can't ask for more than that." – Nerdy "Dan Dare is a classic! Grade: A" – Comic of the Day Collects #1-4 of Dan Dare. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Calibri} p.p2 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Calibri; min-height: 14.0px}

This Companion offers a comprehensive and accessible introduction to the environmental humanities, an interdisciplinary movement that responds to a world reconfigured by climate change and its effects, from environmental racism and global migration to resource impoverishment and the importance of the nonhuman world. It addresses the twenty-first century recognition of an environmental crisis – its antecedents, current forms, and future trajectories – as well as possible responses to it. This books foregrounds scholarship from different periods, fields, and global locations, but it is organized to give readers a working context for the foundational debates. Each chapter examines a key topic or theme in Environmental Humanities, shows why that topic emerged as a category of study, explores the different approaches to the topics, suggests future avenues of inquiry, and considers the topic's global implications, especially those that involve environmental justice issues.

The Israeli peace movement has been in decline since the 2000s. In particular, the liberal Zionist groups, who call for peace for the sake of the security and continuity of Israel, have become paralysed and almost voiceless since the second Intifada. However, despite the stagnation around the Israeli-Palestinian Peace Process, this book argues that other important groups have emerged that present new ways to challenge the status quo. These are radical groups that act in solidarity with the Palestinians and human rights organisations and whose

aim is to reveal the realities of the occupation and hold the government to account. Leonie Fleishmann argues that these groups have been, and remain, the agenda setters, pushing the more moderate groups to mobilise more quickly and encouraging them to take up more confrontational ideas. Using social movements theory, and based on 50 interviews and participant observation, this book sheds light on contemporary Israeli peace activism.

During all its history humanity it seems, has not learned a thing about the stupidity of war and its horrors. Today, the Middle East is in flames, Israelis are fighting the Palestinians; there is killing each day in Syria, Afghanistan, Iraq, Yemen, and other parts of the world; cities are destroyed by incessant bombing. Victims are fleeing the killing, and emigration to Europe is at an all-time high. But contrary to the young soldiers in the US who learn about the inhumanness of war when they are sent to Vietnam or the Middle East, Alain Corcos lived through War World II as a teenager, then escaped with his brother from Nazi France across the Spanish border and joined the Allied Forces in Casablanca in March 1944, three months before D-Day. As an old man today, Corcos had time to reflect on war, and in his book *The Folly of War* he paints the pains that soldiers and civilians go through in any kind of war. He wonders if humanity is ready for peace. Wouldn't it be more reasonable to work together than killing each other for foolish reasons? We face many challenges -- the threat of nuclear war, overpopulation, climate change, and worldwide pandemics, to name a few. Corcos explores real solutions that offer hope instead of continued destruction. How would you feel if you were told that everything you thought you knew was a lie? Humanity has been living with amnesia since the dawn of civilization. Mankind has believed that authority provides the truth, rather than truth provides the authority. This book is an attempt to find the truth of our past and the real history of our civilization, why it has been hidden away from us and by whom. It is our story, with a different theory of the beginning of the universe to the coming

totalitarian society of today. It follows our history from the cataclysm in our solar system and on Earth in 10,900 BCE, through the formation of all religions, mystery schools and secret societies that still exist today. Because there are too many dots to connect, it instead, follows a thread of greed, power and control through all the world's major events, wars, assassinations, fake terrorism, fake news, and false flag events, such as 9/11 and the London tube bombings. It reveals our actual history and attempts to provide evidence that demonstrates that this is not a conspiracy theory, but a reality. In the West, the 'authorities' want to keep us occupied and non-thinking, with 'reality' television shows, televised sports, sixty-hour work weeks, alcohol and drug abuse, texting on our iPhones, believing in the lies or partial lies they want us to believe in and leave the thinking to them. Religious institutions, the educational system, the justice system, the economic system, the media, and even secret societies, have been infiltrated and usurped by these individuals and others with the same philosophy, at mankind's expense. These individuals have no empathy and no concern for the human condition. They seek only one thing, and that is power, the power to control. To them, power is more than an addiction, but a right. Knowledge is the form of their initial power. They use that to gain economic power, control and influence, and then infiltrate all levels of society until they infect the entire planet. Their religion is worshipping the 'self' and their 'ego' and they believe that their unique ego is their 'divine spark'. Their motto is 'Do as thou wilt'. Who are these individuals? Why and how have they managed to do this over the past 12,000 years? Is there anything we can do that might reverse this during the next 12,000 years? Can we ensure this doesn't happen again during the next cycle of our Earth, or will it repeat again and again, with only minor changes? These are the questions that I hope to, if not answer, give at least some direction where we can find some hope to recapture our civilization.

"Dare to Inspire shows how to spark and sustain exponential growth." --Shawn Achor, New York Times bestselling author of Big Potential and The Happiness Advantage
Inspiration is a most critical resource to be managed in modern work. The problem is that the power of inspiration often feels fleeting. But what if you could design your own way to be inspired at work on a regular basis? What if you could make your own inspiration last? Rooted in 18 engines of inspiration that emerged from interviews with leaders across different industries, Dare to Inspire shows how to supercharge inspiration for yourself, your team, and your organization. Each chapter offers tools, strategies, and examples of how to make inspiration happen and last. Through stories of pioneers in business, health, education, and other industries, readers learn how to effectively use the engines to spark inspiration, along with specific practices to sustain it. Dare to Inspire features Chef Wes Avila, the founder of L.A. sensation Guerrilla Tacos, who was inspired to revolutionize his industry; crowdfunding pioneer Charles Best, who founded DonorsChoose to meet the challenge of connecting teachers in need with donors interested in supporting educational programs; and many others. This will be a vital book for anyone interested in creativity, success, achievement, and happiness.

To successfully conduct an epidemiological study, academic subject knowledge must be combined with careful consideration of the practical elements involved. From an academic perspective, insights into the basis of epidemiology, the concepts behind how we study diseases, and the challenges and limitations of the results that emerge are prioritised. However, the success of the academic analysis depends on how, when, and where the data used is collected.

Epidemiological Studies: A Practical Guide focuses on the practical challenges of epidemiological data collection. Essential topics, such as how to choose the population to study, how to maximise participation and retention, and how to frame questions so that subjects provide the information required, are the core of the material presented. The book explains the skills needed to conduct a study where data is collected and presented accurately, and in appropriate formats. In

addition to presenting a step-by-step guide to epidemiological investigations, the chapters in the book are accompanied by examples of how to phrase the letters and forms needed for each stage of conducting a study. Focusing on measurement, study designs, statistics, methodological issues, and key skills, the book provides a valuable background to epidemiological study. With detailed tables and figures, a clear chapter outline, and a straightforward index, the information presented is easily accessible and can quickly be applied to the reader's own work. Extensively revised, this new edition includes updates on case-crossover, Mendelian randomisation, and case-cohort. New chapters have been added to reflect the areas a student is now likely to encounter in an introductory epidemiological course, such as evidence synthesis, use of routine data, association or causation, feasibility, and pilot studies. *Epidemiological Studies: A Practical Guide* is ideal for students in epidemiology, public health, health research, and health services research. It is also highly relevant to post-graduate research students, and early stage clinical and non-clinical researchers. "This collection explores the politics, protest and resistance of recent popular culture in relation to Brexit Britain and the Trump-era United States"--

Denmark, Finland, Iceland, Norway and Sweden have led the way for modern family and gender policy. This report shows that improvements in gender equality have contributed considerably to their economic growth.

Offers excerpts from the author's reflections on moments of grace in her own life and her invitation to readers to embrace a life of gratitude and realize God's presence in everyday experiences, accompanied by her own photographs.

The outcome of the European Union membership referendum in 2016 has presented the United Kingdom with one of its greatest challenges of modern times. As negotiations for an exit strategy continue, this volume looks to open up conversations on the socio-legal implications of such a monumental transition. Aimed at addressing issues relating to Brexit that affect every aspect of British society, this book seeks to not just list the problems but to offer viable solutions for "the way forward". Divided into three parts, this book presents a comprehensive yet accessible discussion of the impact of Brexit on the United Kingdom. Part I brings together three social studies that reveal that Brexit may be the result of international nationalist narratives, and that the choice to leave the EU is already affecting Brits abroad and the future opportunities for British students. Part II turns its attention to national legal issues that are affected such as the Irish border, waste management, moral copyright, and the support of local enterprises. Lastly, Part III investigates commercial law touching on important topics such as international litigation, insolvency and tax law. As this publication suggests eventual solutions to several issues caused by Brexit, it may be of interest to not only other academics working in the field, but also to policy makers and relevant stakeholders.

Introduce yourself to Mills & Boon's sexiest series yet! *Her Dirty Little Secret* by JC Harroway All kissing, no telling! Nothing satisfies billionaire Jack Demont more than keeping socialite Harley Jacob from what she wants. After all, their families hate each other, and there's unresolved history between them...along with some serious sexual chemistry! Now they're consumed by a wicked game of lust--they'll give each other

mindless pleasure, but nothing else. No one can know, and keeping something this sexy a secret makes everything a whole lot hotter... Unmasked by Stefanie London The Marriage Clause by Alexx Andria Inked by Anne Marsh

An urgent and passionate plea for a new and ecologically sustainable vision of the good life. The reality of runaway climate change is inextricably linked with the mass consumerist, capitalist society in which we live. And the cult of endless growth, and endless consumption of cheap disposable commodities isn't only destroying the world, it is damaging ourselves and our way of being. How do we stop the impending catastrophe, and how can we create a movement capable of confronting it head-on? In Post-Growth Living, philosopher Kate Soper offers an urgent plea for a new vision of the good life, one that is capable of delinking prosperity from endless growth. Instead, she calls for a renewed emphasis on the joys of being, one that is capable of collective happiness not in consumption but by creating a future that allows not only for more free time, and less conventional and more creative ways of using it, but also for more fulfilling ways of working and existing. This is an urgent and necessary intervention into debates on climate change.

This book explores how capital-labour relations and antagonisms structure forms of militancy in Vietnam and shows that Vietnamese labour militancy is in line with global trends of worker activism. Vietnamese labour politics is undergoing significant changes, with a new Labour code that became law in 2021 allowing workers to join 'worker representative organisations' not subordinate to the state-led union or the ruling Communist Party. This book reflects on the nature of Vietnamese labour politics on the cusp of reform. It focuses on nominally formal labour within the garment and footwear industry in the southern part of the country, the author argues that while employment in the formal economy is expanding in terms of the absolute numbers of people working in formally registered firms, capital employs various ways to make conditions inside these companies increasingly insecure. In response, workers organise in forms of decentralised resistance. The book analyses two of these in detail; wildcat strikes and 'microstrikes'—short collective work stoppages that occur inside workplaces. Arguing that labour resistance is structured in relation to capital's behaviour, and not only because of weak labour relations institutions and mechanisms, this book makes a valuable contribution to the field of labour and social movement studies, development studies, sociology, and political economy and Southeast Asian Studies.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.
