Political Ideologies provides a broad-ranging introduction to both the classical and contemporary political ideologies. Adopting a global outlook, it introduces readers to ideologies' increasingly global reach and the different national versions of these ideologies. Importantly, ideologies are presented as frameworks of interpretation and political commitment, encouraging readers to evaluate how ideologies work in practice, the problematic links between ideas and political action, and the impact of ideologies. Regular learning features encourage readers to think critically about ideologies, and view them as competing and contestable ways of interpreting the world. A unique "stop and think" feature calls for readers to reflect on their own ideological beliefs.

Online Resources: Political Ideologies is accompanied by comprehensive online resources, to support political ideology courses. For students: * Further reading and resources for each chapter to help students to undertake further research and deepen their understanding and critical thinking; * Regular updates help students to keep up to date with ideologies as frameworks of understanding and political action in the real world. For lecturers: * Indicative answers to questions in the book provide a framework for approaching these; * Powerpoint slides to support each chapter, providing an overview and key points to help with

planning;* Further discussion and debate ideas, for use in seminars, encourage big picture thinking about the relationships between ideologies.

Instant #1 bestseller! A deeply moving collection of personal essays from John Green, the author of *The Fault in Our Stars* and *Turtles All the Way Down*.

“The perfect book for right now.”—People “The Anthropocene Reviewed is essential to the human conversation.”—Library Journal (starred review) The Anthropocene is the current geologic age, in which humans have profoundly reshaped the planet and its

biodiversity. In this remarkable symphony of essays adapted and expanded from his groundbreaking podcast, bestselling author John Green reviews different facets of the human-centered planet on a five-star scale—from the QWERTY keyboard and sunsets to Canada geese and Penguins of Madagascar. Funny, complex, and rich with detail, the reviews chart the contradictions of contemporary humanity. As a species, we are both far too powerful and not nearly powerful enough, a paradox that came into sharp focus as we faced a global pandemic that both separated us and bound us together. John Green’s gift for storytelling shines throughout this masterful collection. *The Anthropocene Reviewed* is an open-hearted exploration of the paths we forge and an unironic celebration of falling in love with the world. *Rereading America* has remained the most widely adopted book of its kind because of its unique approach to the issue of cultural diversity. Unlike other multicultural composition readers that settle for representing the plurality of American voices and cultures, *Rereading America* encourages students to grapple with the real differences in perspectives that arise in our complex society. With extensive editorial apparatus that puts readings from the mainstream into conversation with readings from the margins, *Rereading America* provokes students to explore the foundations and contradictions of our dominant

cultural myths.

This revised text is designed to emphasise critical thinking, reading and writing. Twenty nine new selections have been chosen for their cultural diversity and thematic connections. Four chapters on the writing process and extensive writing apparatus.

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers.

Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

"Whiteness pays. As *White by Law* shows, immigrants recognized the value of whiteness and sometimes petitioned the courts to be recognized as white. Haney Lopez argues for the centrality of law in constructing race."--Voice Literary Supplement
"White by Law's thoughtful analysis of the prerequisite cases offers support for the fundamental critical race theory tenet that race is a social construct reinforced by law. Haney Lopez has blazed a trail for those exploring the legal and social constructions of race in the United States."--Berkeley Women's Law Journal
Lily white. White knights. The white dove of peace. White lie, white list, white magic. Our language and our culture are suffused, often subconsciously, with positive images of whiteness. Whiteness is so inextricably linked with the status quo that few whites, when asked, even identify themselves as such. And yet when asked what they would have to be paid to live as a black person, whites give figures running into the millions of dollars per year, suggesting just how valuable whiteness is in American society.
Exploring the social, and specifically legal origins, of white racial identity, Ian F. Haney Lopez here examines cases in America's past that have been instrumental in forming contemporary conceptions of race, law, and whiteness. In 1790, Congress limited naturalization to white persons. This racial prerequisite for citizenship remained in force for over a century and a half, enduring until 1952. In a series of important cases, including two heard by the United States Supreme Court, judges around the country

decided and defined who was white enough to become American. *White by Law* traces the reasoning employed by the courts in their efforts to justify the whiteness of some and the non-whiteness of others. Did light skin make a difference? George Orwell's celebrated novella, *Animal Farm*, is a biting, allegorical, political satire on totalitarianism in general and Stalinism in particular. One of the most famous works in modern English literature, it is a telling comment on Soviet Russia under Stalin's brutal dictatorship based on a cult of personality which was enforced through a reign of terror. The book tells a seemingly simple story of farm animals who rebel against their master in the hope of stopping their exploitation at the hand of humans and creating a society where animals would be equal, free and happy. Ultimately, however, the rebellion is betrayed and the farm ends up in a state as bad as it was before. The novel thus demonstrates how easily good intentions can be subverted into tyranny. Orwell has himself said that it was the first book in which he had tried, with full consciousness of what he was doing, 'to fuse political purpose and artistic purpose into one whole.' The book was first published in England in 1945, and has since then remained a favourite with readers all over the world, and has consistently been included in all prestigious bestseller lists for the past many years.

WINNER OF THE 2014 FOLIO PRIZE AND SHORTLISTED FOR THE NATIONAL BOOK AWARD 2013 George Saunders's most wryly hilarious and disturbing collection yet, *Tenth of December* illuminates human experience and explores figures lost in a labyrinth of troubling preoccupations. A family member recollects a backyard pole dressed for all occasions; Jeff faces horrifying ultimatums and the prospect of Darkenfloxx™ in some unusual drug trials; and Al Roosten hides his own internal monologue behind a winning smile that he hopes will make him popular. With dark visions

of the future riffing against ghosts of the past and the ever-settling present, this collection sings with astonishing charm and intensity.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

her own “bad dreams” with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the “giddily splendid” Getty Museum in Los Angeles, the cool mountains of Bogotá, and the Jordanian Desert, where Bishop James Pike went to walk in Jesus’s footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—“toy garden cities in which no one lives but everyone consumes”—and exposes the contradictions and compromises of the women’s movement. In the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in “a voice like no other in contemporary journalism,” *The White Album* is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award–winning author of *The Year of Magical Thinking* (*The New York Times Book Review*). Its power to electrify and inform remains undiminished nearly forty years after it was first published.

In her latest book, five-time #1 New York Times bestselling author Dr. Brené Brown writes, “If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and to be stewards of the stories that we hear. This is the framework for meaningful connection.” In *Atlas of the Heart*, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she

maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown’s extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. *Atlas of the Heart* draws on this research, as well as on Brown’s singular skills as a storyteller, to show us how accurately naming an experience doesn’t give the experience more power, it gives us the power of understanding, meaning, and choice. Brown shares, “I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves.”

NEW YORK TIMES BESTSELLER • Tarana Burke and Dr. Brené Brown bring together a dynamic group of Black writers, organizers, artists, academics, and cultural figures to discuss the topics the two have dedicated their lives to understanding and teaching: vulnerability and shame resilience.

Contributions by Kiese Laymon, Imani Perry, Laverne Cox, Jason Reynolds, Austin Channing Brown, and more It started as a text between two friends. Tarana Burke, founder of the ‘me too.’ Movement, texted researcher and writer Brené Brown to see if she was free to jump on a call. Brené assumed that Tarana wanted to talk about wallpaper. They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when the phone rang. But it was immediately clear to Brené that the conversation wasn’t going to be about wallpaper. Tarana’s hello was serious and she hesitated for a bit before saying, “Brené, you know your work affected me so deeply, but as a Black woman, I’ve sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the application has been harder.” Brené replied, “I’m so glad

we're talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you're not physically or emotionally safe?" Long pause. "That's why I'm calling," said Tarana. "What do you think about working together on a book about the Black experience with vulnerability and shame resilience?" There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of essays on Black shame and healing. Along with the anthology contributors, they create a space to recognize and process the trauma of white supremacy, a space to be vulnerable and affirm the fullness of Black love and Black life.

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In *Braiding Sweetgrass*, Kimmerer brings these two lenses of knowledge together to take us on "a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise" (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

A 10th anniversary edition of this field defining work—an intellectual inspiration for a generation of LGBTQ scholars

Cruising Utopia arrived in 2009 to insist that queerness must be reimagined as a futurity-bound phenomenon, an insistence on the potentiality of another world that would crack open the pragmatic present. Part manifesto, part love-letter to the past and the future, José Esteban Muñoz argued that the here and now were not enough and issued an urgent call for the revivification of the queer political imagination. On the anniversary of its original publication, this edition includes two essays that extend and expand the project of Cruising Utopia, as well as a new foreword by the current editors of Sexual Cultures, the book series he co-founded with Ann Pellegrini 20 years ago. This 10th anniversary edition celebrates the lasting impact that Cruising Utopia has had on the decade of queer of color critique that followed and introduces a new generation of readers to a future not yet here.
