The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

Leah Trachtman-Palchan was an ordinary woman who lived an extraordinary life. This was a life of migration, dissent, exile and survival. Born in the final years of Tsarist Russia, her family was forced to leave their small town following the repeated pogroms of the Civil War era. A two year voyage followed, bringing them all to British Mandate Palestine in 1921. Here what seems like a typical Jewish story of migration from Eastern Europe in the early twentieth century took an unexpected turn. As a teenager, Leah joined the Communist movement in Palestine - illegal under the British Mandate. She was arrested, imprisoned and eventually deported by the British to the Soviet Union. This memoir is filled with colourful, and sometimes harrowing, sketches of the people who passed through her life during the era of Stalin's Great Purges and the evacuation of factories to Siberia during World War II. Shedding new light on both Mandate Palestine and the Jewish experience in Soviet Moscow, this book reveals the remarkable story of a woman living through some of the most pivotal events of twentieth-century history.
